

LOGISTICS MANAGEMENT

BBA, SEMESTER - VI

According to the syllabus of 'Kurukshetra University'

Dr. Meenakshi

M.Com, Ph.D

Assistant Professor,

Head, Department of Commerce

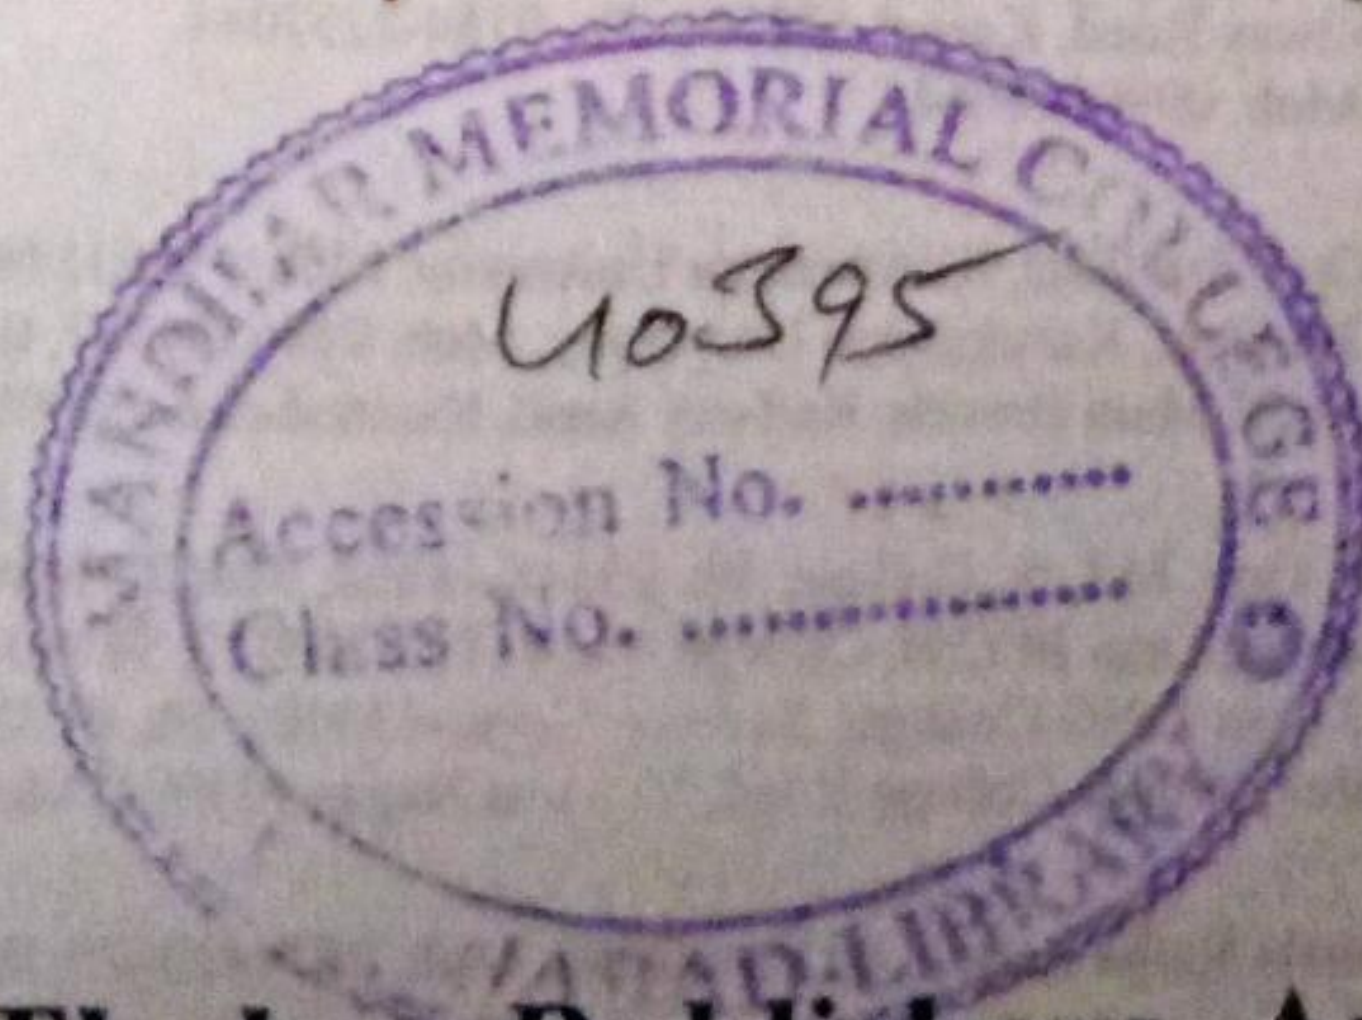

Government College for Girls, Panchkula

Dr. Richa Dhull Rathee

M.Com, M.Phil, Ph.D (Gold Medalist)

Assistant Professor

Smt. Aruna Asaf Ali Government P.G. College, Kalka

Thakur Publishers, Ambala

* Lucknow * Meerut * Hyderabad * Pune * Jaipur * Chennai *
* Ahmedabad * Bengaluru * Bhubaneswar *

Contents

Chapter 1: Introduction to Logistics

- 1.1. Concept of Logistics
- 1.1.1. Meaning and Definition of Logistics
- 1.1.2. Nature of Logistics
- 1.1.3. Objectives of Logistics
- 1.1.4. Scope of Logistics: Logistical Activities/ Components
- 1.1.5. Role of Logistics
- 1.1.6. Importance of Logistics
- 1.1.7. Factors Affecting Cost and Importance of Logistics
 - 1.1.7.1. Competitive Relationships
 - 1.1.7.2. Product Relationships
 - 1.1.7.3. Spatial Relationships
- 1.1.8. Changing Logistics Environment
- 1.2. Coordination Function of Logistics
 - 1.2.1. Introduction
 - 1.2.2. Inter-Functional Coordination
 - 1.2.2.1. Antecedents/ Requisites of Inter-Functional Coordination
 - 1.2.2.2. Nature/ Dimensions to Implement Inter-Functional Coordination
 - 1.2.2.3. Consequences of Inter-Functional Coordination
 - 1.2.3. Inter-Corporate Coordination
 - 1.2.3.1. Antecedents/Requisites of Inter-Corporate Coordination
 - 1.2.3.2. Nature/Dimensions to Implement Inter-Corporate Coordination
 - 1.2.3.3. Consequence of Inter-Corporate Coordination
 - 1.2.4. Effect of Lack of Coordination
 - 1.2.5. Obstacles in Achieving Coordination
 - 1.2.6. Managerial Levers to Achieve Coordination
- 1.3. System Approach to Logistics
 - 1.3.1. Introduction
 - 1.3.2. Aspects in System Approach of Logistics
 - 1.3.2.1. Logistics Cost Perspective
 - 1.3.2.2. Logistics Optimality Level
 - 1.3.3. Techniques of Logistics System Analysis
 - 1.3.4. Total Cost Concept of Logistics System
- 1.4. Exercise

Chapter 2: Concepts of Customer Service

- 2.1. Customer Service in Logistics
 - 2.1.1. Concept of Customer Service

2.1.2.	Principles of Customer Service	73
2.1.3.	Seven R's of Customer Service	75
2.1.4.	Perfect Order for Customer Service	77
2.1.5.	Elements of Customer Service	78
2.1.6.	Strategies for Customer Service	81
2.1.7.	Customer Service Practices	85
2.1.8.	Differential Advantage through Customer Service	87
2.1.9.	Implementing Customer Service Standards	88
2.1.10.	Performance Measures for Customer Service: Basic Service Capability	89
2.1.11.	Barriers to an Effective Customer Service	93
2.1.12.	Trade-off: Customer Service and Cost	93
2.2.	Exercise	98

Chapter 3: Supply Chain Management

3.1.	Supply Chain Management (SCM)	100
3.1.1.	Introduction to Supply Chain	100
3.1.2.	Meaning and Definition of SCM	102
3.1.3.	Nature of SCM	103
3.1.4.	Objectives of SCM	104
3.1.5.	Importance of SCM	106
3.1.6.	Functions of SCM	108
3.1.7.	Flows in SCM	110
3.1.8.	Components of SCM	111
3.1.9.	Process View of Supply Chain	113
3.1.9.1.	Cycle View	113
3.1.9.2.	Push and Pull View	115
3.1.10.	Factors Influencing SCM	117
3.1.11.	Drivers of Supply Chain Performance	119
3.1.12.	Enablers of Supply Chain Performance	121
3.1.13.	Business Processes in SCM	123
3.1.14.	Problems of Complexity Confronting Supply Chains	125
3.2.	Physical Distribution	128
3.2.1.	Meaning and Definition of Physical Distribution System	128
3.2.2.	Nature of Physical Distribution	129
3.2.3.	Importance of Physical Distribution System	130
3.2.4.	Patterns of Physical Distribution	132
3.3.	Supply Chain Interface with Logistics	134
3.3.1.	Introduction	134
3.3.2.	Role of Logistics in SCM	134
3.4.	Exercise	137

Chapter 4: Order Processing & Warehousing

- 4.1. Order Processing
 - 4.1.1. Introduction
 - 4.1.2. Activities Involved in Order Processing
 - 4.1.3. Categories of Order Processing
 - 4.1.4. Factors Affecting Order Processing
 - 4.1.5. Significance of Order Processing
- 4.2. Warehousing
 - 4.2.1. Introduction
 - 4.2.2. Components of Warehousing
 - 4.2.3. Importance of Warehousing
 - 4.2.4. Decisions in Warehousing
 - 4.2.4.1. Types of Warehouses
 - 4.2.4.2. Number of Warehouses
 - 4.2.4.3. Size of Warehouses
 - 4.2.4.4. Location of Warehouses
 - 4.2.5. Functions of Warehousing
 - 4.2.6. Warehousing Options
 - 4.2.7. Issues and Challenges of Warehousing
 - 4.2.8. Ways of Managing Warehousing Operations Effectively
- 4.3. Exercise

Chapter 5: Inventory Management

- 5.1. Inventory in Logistics
 - 5.1.1. Meaning and Definition of Inventory
 - 5.1.2. Need of Inventory
 - 5.1.3. Motives of Holding Inventories
 - 5.1.4. Classification/Elements of Inventory
 - 5.1.5. Types of Inventory
 - 5.1.6. Benefits of Holding Inventory
 - 5.1.7. Costs of Holding Inventory
 - 5.1.8. Factors Determining the Optimum Level of Inventory
- 5.2. Inventory Management
 - 5.2.1. Meaning and Definition of Inventory Management
 - 5.2.2. Functions of Inventory Management
 - 5.2.3. Importance of Inventory Management
 - 5.2.4. Inventory Level Decisions in Logistics
 - 5.2.4.1. Managing Cycle Inventory
 - 5.2.4.2. Managing Safety Inventory
 - 5.2.4.3. Managing Seasonal Inventory
 - 5.2.4.4. Managing Short Life Cycle Inventory

5.2.5.	Reorder Level/Point	193
5.2.6.	Factors Affecting Inventory Management	195
5.3.	Inventory Cost Control	197
5.3.1.	Introduction	197
5.3.2.	Inventory Control System	198
5.3.3.	Inventory Control Techniques	199
5.3.4.	Issues in Inventory Control	206
5.4.	Exercise	208

Chapter 6: Transportation Fundamentals

6.1.	Transportation	210
6.1.1.	Introduction	210
6.1.2.	Role of Transportation in Logistics	210
6.1.3.	Participants in Transportation	212
6.1.4.	Importance of Transportation	212
6.1.5.	Types of Transportation	215
6.1.6.	Key Decision Areas in Transportation	221
6.1.6.1.	Transportation Modes Selection	221
6.1.6.2.	Vehicle Routing and Scheduling	222
6.1.6.3.	Freight Consolidation	223
6.1.7.	Factors Affecting Transportation Decisions	224
6.1.8.	Transportation Network	226
6.1.8.1.	Design Options for Transportation Network	226
6.1.8.2.	Trade-Offs in Design Option for Transportation Network	234
6.2.	Exercise	236

Chapter 7: Packaging in Logistics

7.1.	Logistics Packaging	238
7.1.1.	Introduction	238
7.1.2.	Purpose of Logistical Packaging	239
7.1.3.	Types of Logistical Packaging	241
7.1.4.	Factors Influencing Packaging Decisions	244
7.1.5.	Packaging Materials	244
7.1.6.	Packaging Costs	248
7.1.7.	Logistical Package Designing	249
7.1.7.1.	Steps in Designing a Package	249
7.1.7.2.	Considerations in Package Designing	251
7.1.8.	Unitisation in Logistical Packaging	252
7.1.8.1.	Reasons for Unitisation in Packaging	253
7.1.8.2.	Methods of Package Unitisation	254
7.1.9.	New Trends in Packaging	257
7.2.	Exercise	260

Chapter 8: Logistics Technology & Performance

8.1.	Technology in Logistics	260
8.1.1.	Introduction	260
8.1.2.	Development Phases of IT in Logistics	260
8.1.3.	Role of Technology in Logistics	260
8.1.4.	Information Technology Capabilities	265
8.1.5.	IT Solutions for Logistics	267
8.1.6.	Recent Technologies in Logistics	272
8.2.	Logistics Performance Measurement and Control	279
8.2.1.	Introduction	279
8.2.2.	Need of Logistics Control	280
8.2.3.	Control Process for Logistical Performance	281
8.2.3.1.	Setting Performance Objectives and Goals	281
8.2.3.2.	Performance Measurement	282
8.2.3.3.	Taking Corrective Action	284
8.2.4.	Key Areas of Logistics Control	285
8.3.	Exercise	288
Model Papers		289
