

Contents

Chapter 1. Position of a Point	...
1·6 Distance between two Points	...
1·7 Section Formulae	...
1·10 Area of a Triangle	...
Chapter 2. Locus and its Equation	...
Miscellaneous Exercises I	...
Chapter 3. Lines	...
3·5 Slope From	...
3·6 Point-Slope Form	...
3·6 (Cor) Parametric Representation	...
3·7 Two point Form	...
3·8 Intercept Form	...
3·9 Normal Form	...
3·10 General Form	...
3·11 Reduction of equation of lines	...
3·12 The constant of the equation of a line	...
3·13 Intersecting lines	...
3·14 Angle between two lines	...
3·15 Parallel lines	...
3·16 Perpendicular lines	...
3·18 Distance of a point from a line	...
3·21 Equation of second degree	...
Miscellaneous Exercises II	...
Chapter 4. The Conics	...
4·2 Equation of a Circle	...
4·10 A Circle and a Line	...
4·11 Tangent to a Circle	...
4·15 Length of a Tangent to a Circle	...
4·17 Family of Circles	...
4·18 Radical Axis of two Circle	...
4·19 The Conic Section	...
4·21 Equation of a parabola	...
4·22 Parametric representation of a circle and a parabola	...
Miscellaneous Exercises III	...
Delhi Higher Secondary Examination Papers	...
