*Preface* *v*

**1 TRANSCENDENTAL AND POLYNOMIAL EQUATIONS** **1**

1.1 Introduction . . . . . 1

1.2 Iterative methods for simple roots . . . . . 3

1.3 Iterative methods for multiple roots . . . . . 7

1.4 Complex roots . . . . . 8

1.5 Iterative methods for a system of nonlinear equations . . . . 9

1.6 Iterative methods for polynomial equations . . . . . 10

1.7 Problems and solutions . . . . . 15

**2 LINEAR ALGEBRAIC EQUATIONS AND EIGENVALUE PROBLEMS** **80**

2.1 Introduction . . . . . 80

2.2 Direct methods . . . . . 84

2.3 Iteration methods . . . . . 89

2.4 Eigenvalue problems . . . . . 91

2.5 Special system of equations . . . . . 96

2.6 Problems and solutions . . . . . 100

**3 INTERPOLATION AND APPROXIMATION** **161**

3.1 Introduction . . . . . 161

3.2 Lagrange and Newton interpolations . . . . . 162

3.3 Gregory-Newton interpolations . . . . . 164

3.4 Hermite interpolation . . . . . 166

3.5 Piecewise and Spline interpolation . . . . . 166

3.6 Lagrange Bivariate interpolation . . . . . 169

3.7 Approximation . . . . . 169

3.8 Problems and solutions . . . . . 173

4 DIFFERENTIATION AND INTEGRATION 238

4.1 Introduction . . . . . 238
4.2 Numerical differentiation . . . . . 238
4.3 Extrapolation methods . . . . . 242
4.4 Partial differentiation . . . . . 243
4.5 Optimum choice of step-length . . . . . 244
4.6 Numerical integration . . . . . 245
4.7 Newton-Cotes integration methods . . . . . 246
4.8 Gaussian integration methods . . . . . 248
4.9 Composite integration methods . . . . . 255
4.10 Romberg integration . . . . . 257
4.11 Double integration . . . . . 257
4.12 Problems and solutions . . . . . 260

5 NUMERICAL SOLUTION OF ORDINARY DIFFERENTIAL EQUATIONS 313

5.1 Introduction . . . . . 313
5.2 Singlestep methods . . . . . 317
5.3 Multistep methods . . . . . 321
5.4 Predictor Corrector methods . . . . . 325
5.5 Stability analysis . . . . . 327
5.6 System of differential equations . . . . . 329
5.7 Shooting methods . . . . . 331
5.8 Difference methods . . . . . 334
5.9 Problems and solutions . . . . . 337

*Appendix* : Pascal Programs 420

*Bibliography* 465

*Index* 469
