

9	Percentage change from previous year in reported value per acre of farm land and buildings and in related economic measures	233
10	Population, labor force, and disposable income per capita, 1950 and 1960, and projections for 1980 and 2000	257
11	Realized gross farm income and related data, 1910-60, and projections for 1980 and 2000	268
12	Summary of the characteristics of the likely-change and no-friction-no-lag patterns of agriculture in 2000, and major alternatives for influencing change	350

LIST OF FIGURES

1	Farm operator level-of-living indexes, 1959	22
2	Net migration by counties, 1950 to 1960	36
3	Average annual net outmigration from the farm population, 1920-66	38
4	Replacement ratios of rural males aged 20-64, for counties, 1960-70	40
5	Number of farm operators by age groups, two selected periods, for 48 contiguous states	44
6	U.S. population in 1910 and 1960, by broad categories of residence	52
7	Land division types in the United States	67
8	Land settlement pattern in the Central Prairie of Illinois	71
9	Land settlement pattern in the Loess Plain, western Iowa	72
10	Land settlement pattern in the Lower Piedmont of Pennsylvania	73
11	Land settlement pattern in the Middle Carolina Piedmont, North Carolina	75
12	The trend in land utilization, 48 contiguous states	86
13A	Cropland harvested, increase in acreage, 1899-1949	91
13B	Cropland harvested, decrease in acreage, 1899-1949	91
14	Total hours of man labor used for farm work, 1910-64	119
15	Total man-hours used in farm work, number of farms, and hours per farm, 1910-64	121
16	Indexes of total farm inputs and total farm output, 1910-64	122
17	Relation of farm labor inputs to current operating expense inputs, all farms, 1910-64	124
18	Prices of selected farm inputs, quantity of food consumed	125
19	Population, agricultural output, and real income per capita, 1870-1964	132
20	Domestic agricultural consumption and agricultural exports, 1870-1964	134
21	Response curves for total agriculture	144

22	Labor and variable capital input combinations for agricultural output, in relation to production adjustment alternatives	147
23	Crop and intensive pasture land, employment, annual nonfarm inputs, and total capital in agriculture, 1870-1964	151
24	Farm production expenses as percentage of realized gross farm income, 1910-64	153
25	Value of agricultural exports from the United States, 1910-65	170
26	Value of agricultural imports into the United States, 1910-64	173
27	Agricultural output, agricultural exports, and supplementary agricultural imports, in 1954 prices, 1870-1965	175
28	World and United States cotton production, 1910-65	177
29	Realized gross and net income from farming, 1910-65	186
30	Net farm income in 1957-59 dollars, and total farm output, 1910-65	190
31	Disposable personal income per capita, from all sources, farm and nonfarm population, 1934-65	192
32	Investments in crops in storage, 1952-66	210
33	Value of physical assets in agriculture, 1870-1966	229
34	Value of farm real estate per acre in relation to total realized net income of farm operators, 1870-1966	230
