Contents

Chapter 1	Introduction	1
	What Is Psychology? 4	
	Who Psychologists Are 5	
	What Psychologists Do 6	
	Methods of Psychology 13	
	A Brief Historical Perspective 17	
Chapter 2	Evolution and Heredity	27
	The Emergence of Man 29	
	Evolution 31	
	<i>Harlow and Suomi: Generalizations from Monkey to Man</i> 34	
	Genetic Factors in Evolution 37	
	Genetics and Behavior 40	
Chapter 3	The Brain and Behavior	49
	The Cerebral Cortex 51	
	The Electrical Signs of Brain Activity 59	
	The Brain and Language 64	
	Appendix: A Survey of the Human Nervous System	69
	Neuroanatomy 69	
	Neurophysiology 80	
Chapter 4	Perception	87
	Attention 90	
	Hearing 94	
	Vision 97	
	<i>The Colors We See</i> 102	
	<i>Jameson and Hurvich: Color Vision</i> 104	
	<i>Arnheim: Visual Perception in the Arts</i> 108	

	<i>Measurement of Sensation</i>	118	
	Perceptual Constancies	120	
	Perception of Movement	124	
	Sensory-Motor Integration and the Development of Perception	126	
	Sensory Deprivation	130	
Chapter 5	States of Awareness		137
	Sleep: A Natural State	140	
	Hypnosis	146	
	<i>Orne: Hypnosis</i>	150	
	Meditation and Religious Experience	154	
	<i>Schwartz: Meditation</i>	156	
	Drugs	158	
Chapter 6	Learning: Basic Processes and Issues		177
	Varieties of Learning	180	
	Habituation and Sensitization	181	
	Classical Conditioning	184	
	Operant or Instrumental Conditioning	188	
	Basic Processes in Learning	200	
	Cognitive Learning	205	
Chapter 7	Memory and Language		213
	Types of Memory	215	
	Measures of Retention	220	
	Factors Affecting Memory	223	
	<i>Bower: Memorizing with Imaginary Maps</i>	228	
	Verbal Learning and Memory	232	
	Learning, Memory, and Information Processing – A Synthesis	234	
	Motor-Skill Learning and Memory	238	
	Factors Affecting Verbal and Motor-Skill Learning	239	
	Comparing Verbal and Motor-Skill Learning	243	
	Programmed Learning	244	
	Language Defined	247	
	<i>Wanner: Understanding Understanding</i>	254	
	Development of Language	256	
	Theories of Language Development	259	
Chapter 8	Thinking		269
	Types of Thinking	272	
	The Uses of Thinking	277	
	Concept Formation	279	
	Problem-Solving	282	
	Realistic Thinking and Wishful Thinking	287	
	Concrete Thinking and Abstract Thinking	289	
	Creative Thinking and Critical Thinking	291	
	Beliefs and Ideology	298	
	The Physical Correlates of Thinking	300	
	Computers and Thinking	301	

Chapter 9	Dreams and Symbols	305
	Distinctive Characteristics of Dreaming	309
	Theories of the Functions of Dreams	310
	Some Frequent Questions about Dreams	313
	Symbolism	322
	Techniques for Analyzing Symbols	326
	Methods for Detecting Symbols	328
	The Status of Research on Dreams and Symbols	333
Chapter 10	Motivation	337
	Primary Organic Drives	342
	Learned Drives	350
	Some Learned Drives	353
	Psychological Drives as Basic Needs	357
	Incentives: External Motivators	361
Chapter 11	Emotion	365
	The Arousal Element of Emotion	368
	<i>Miller: Control of Bodily Functions through Biofeedback</i>	370
	Labeling Emotions	379
	Behavioral Elements of Emotion	381
	Types of Emotions: Their Causes, Consequences, and Control	382
	Emotions: Some Conclusions	388
Chapter 12	Human Aggression and Conflict	391
	What Is Aggression?	393
	Studying Aggression in the Laboratory	395
	Is There an Instinct for Aggression?	397
	Aggression and the Brain	398
	Learning and Aggression	403
	Sources of Aggression	404
	Factors That Determine Aggressive Behavior	411
	Frustration	412
	Inner Conflicts	413
Chapter 13	Human Sexual Behavior	423
	Studies of Sexual Behavior: Methods and Results	425
	Determinants of Sexual Behavior	438
	Homosexuality	441
	Transsexualism	446
	Love and Jealousy	447
Chapter 14	Development	453
	Development: The Interaction of Genes and Environment	456
	Theories of Development	459
	Behavioral Observation	461
	Developmental Phases	462
	Infancy – From Fetus to First Words	463
	Childhood – From Toddler to Teenager	471

	<i>Maccoby and Jacklin: Psychological Differences between the Sexes – and their Implications</i>	476	
	Adolescence: Apprenticeship to Adulthood	482	
	Adulthood	489	
	An Overview of Development	491	
Chapter 15	Intelligence and Its Measurement		497
	How is Intelligence Measured?	500	
	Limitations of Testing	508	
	Theories of the Structure of Intelligence	511	
	Development of Intelligence	513	
	Does Intelligence Decline with Age?	521	
	Extremes of Intelligence	522	
Chapter 16	Personality: Theories and Issues		529
	Psychodynamic Theories	532	
	<i>Shaver: On the Tip of my Tongue: Two Approaches to Memory Failure</i>	536	
	Social Psychological Theories	539	
	Trait Theories	542	
	Type Theories	544	
	Cognitive Theory	547	
	Behavior Theories	548	
	Theories of the Self	551	
	Existential Theory	554	
	Issues in Modern Personality Theory	555	
Chapter 17	Assessment of Personality		567
	How Personality Tests Are Constructed	569	
	Character Analysis	573	
	Personality Inventories	575	
	<i>Shaver: Psychology and Jury Selection</i>	582	
	Projective Methods	584	
	Behavior Ratings	588	
	Uses of Personality Tests	591	
	Criticisms of Personality Tests	593	
Chapter 18	Attitudes and Their Measurement		597
	Characteristics of Attitudes	600	
	Attitude Measurement	606	
	Attitude Formation	615	
	Attitude Change	620	
Chapter 19	Groups and Social Interaction		633
	Integration	636	
	<i>Rubin: What Is This Thing Called Love?</i>	639	
	Differentiation	649	
	The Group and the Individual	655	

Chapter 20	Behavior Disorders	667
	A Historical Note	669
	Modern Approaches to Abnormal Behavior	671
	The Range of Abnormal Behavior	674
	Assessment and Classification	675
	The Psychoses	676
	The Neuroses	687
	Personality or Character Disorders	694
	Psychosomatic Disorders	696
	Organic Disorders	698
	<i>Freedman: Alcoholism</i>	700
Chapter 21	Treatment of Behavior Disorders	709
	Psychodynamic Therapy	712
	Client-Centered Therapy	713
	Group Therapy	714
	Behavior Therapy	716
	Psychodynamic and Behavior Therapies	722
	Other Methods of Psychotherapy	729
	Social Therapy	730
	Somatic Therapies	734
	<i>Valenstein: Psychosurgery</i>	736
	Evaluating Treatment	740
	Appendix: Highlights of Descriptive and Inferential Statistics	747
	Glossary	763
	References	779
	Name Index	793
	Subject Index	796
