ABOUT THE COLLEGE

Manohar Memorial Post-Graduate College, Fatehabad (Haryana) came into its wonderful existence on **June 24, 1970**. The college has been marching ahead on its uphill journey since its inception. It has since become synonymous with dedication, commitment and service to the community in this educationally and culturally backward region. It is universally recognised for its impeccable credentials of being a top-ranking and first-rate institution all over the state. It has left behind more than five glorious decades of its eventful history.

The college owes its emergence to the “**Divine Inspiration**” of **Late Swami Gita Nand Ji Maharaj** who counselled **Late Mehta Khem Raj Ji Batra** to establish a college in the name of his only son **Manohar Batra** who had been snatched away by the cruel hands of destiny in his blooming youth while he had still seen only twenty-one springs of his life. The college was approved in the first instance by **Panjab University, Chandigarh**; then by **Kurukshetra University, Kurukshetra** and is presently affiliated to **Chaudhary Devi Lal University, Sirsa**. The self-contained twenty acre sprawling campus is strategically located in the heart of the city on the National Highway in its green natural environs. It is well-equipped with an extensive building infrastructure containing all state-of-the art facilities.

ABOUT THE CONFERENCE

The main goal of this Conference is to create and spread awareness among the common people in general and students in particular regarding the devastating impact of Drug Abuse. It is one of the major socio-economic problems affecting the physical, mental, emotional and the spiritual life of individuals. Drug Addiction leads to a disease prone society and affects all aspects of human life. So, it is indeed the need of the present times to understand that the excessive use of drugs can detrimentally impact our daily activities by causing problems with memory and decision-making, resulting in mental confusion and even permanent brain damage.
