

SQL, PL/SQL

THE PROGRAMMING
LANGUAGE OF
ORACLE

3rd Revised
Edition

IVAN BAYROSS

BPP PUBLICATION

TABLE OF CONTENTS

SECTION – I: SETTING UP ORACLE 9i

1. DATABASE CONCEPTS	1
WHAT IS DATABASE	1
WHAT IS DATABASE MANAGEMENT SYSTEMS (DBMS).....	1
<i>Benefits of DBMS</i>	1
WHAT IS A RELATIONAL DATABASE MANAGEMENT SYSTEM (RDBMS)	2
<i>Dr. E. F. Codd's Rules for RDBMS</i>	2
DBMS V/S RDBMS	3
NORMALIZATION	4
<i>First Normal Form</i>	4
<i>Second Normal Form</i>	5
<i>Third Normal Form</i>	6
<i>Circumstances under which Normalization can be avoided</i>	7
INTRODUCTION TO ORACLE.....	7
<i>Features of Oracle 9i Release 2 (9.2)</i>	8
SOFTWARE DEVELOPMENT TOOLS OF ORACLE	8
INTRODUCTION TO STRUCTURED QUERY LANGUAGE (SQL).....	9
<i>Features of SQL</i>	10
<i>Features of SQL *PLUS</i>	10
<i>SQL V/s SQL *PLUS</i>	10
<i>Rules for SQL</i>	10
<i>SQL Delimiters</i>	11
<i>Components of SQL</i>	11
<i>Examples of DDL, DML and DCL commands</i>	12
2. INSTALLATION OF ORACLE 9i.....	13
INSTALLING THE ORACLE 9i DATABASE SERVER	13
INSTALLATION OF ORACLE 9i ON WINDOWS.....	13
INSTALLATION OF ORACLE 9i ON A CLIENT MACHINE.....	22
CONNECTING A CLIENT TO THE ORACLE SERVER.....	32
3. POST INSTALLATION STEPS	33
CHANGING THE DEFAULT PASSWORD FOR SYS	33
ACTIVATING/DEACTIVATING THE ORACLE 9i ENGINE	35
<i>Disabling Automatic Startup</i>	35
<i>Enabling A Service on Demand</i>	38
<i>Manually Enabling The Oracle 9i Services</i>	38
UNINSTALLING ORACLE 9iAS.....	39
<i>Steps To Uninstall Oracle 9iAS</i>	39
TABLESPACES IN ORACLE 9i	41
<i>Logical Structures Of A Database</i>	41
<i>Tablespaces</i>	41
<i>The Oracle System Tablespace</i>	41
<i>Tablespace Usage</i>	42
<i>The CREATE Command for TABLESPACES</i>	42
<i>Creating A Tablespace Using SQL *Plus</i>	46

CREATING TABLESPACE THROUGH ENTERPRISE MANAGER.....	47
CREATING A DBA LOGIN ID	51
CREATING A USER.....	54
<i>Creating A User For Oracle 9i</i>	55
SELF REVIEW QUESTIONS	58
HANDS ON EXERCISES	59
4. SETTING UP INTERACTIVE SQL *PLUS TOOL.....	60
INVOKING SQL *PLUS.....	60
CREATING A DESKTOP SHORTCUT TO SQL *PLUS.....	61
UNDERSTANDING THE SQL *PLUS ENVIRONMENT VARIABLES.....	66
<i>SQL Syntax Or Command Based Attributes</i>	66
<i>Environment Related Attributes</i>	69
<i>Report Related Attributes</i>	73
<i>Printing Attributes</i>	73
<i>Database Backup And Recovery Related Attributes</i>	74
<i>Miscellaneous Attributes</i>	75
WORKING WITH THE SQL *PLUS, ASCII EDITOR.....	75
<i>Assigning A User Defined ASCII Editor For SQL *Plus</i>	76
<i>Saving The SQL Query To A User Defined File</i>	77
<i>In Conclusion</i>	78
SELF REVIEW QUESTIONS	78
ANSWERS TO SELF REVIEW QUESTIONS.....	81
SOLUTIONS TO HANDS ON EXERCISES.....	82
SECTION – II: SETTING UP THE BUSINESS MODEL	83
5. A BUSINESS MODEL FOR RETAIL BANKING	83
BANKING BUSINESS MODEL SPECIFICATIONS	83
<i>Savings Account (It's child processes described)</i>	83
<i>Savings Bank Transactions</i>	84
<i>Opening A Savings Bank Account (Details of the process flow)</i>	85
<i>Opening A Current Account (Details of the process flow)</i>	86
<i>Fixed Deposits (It's child processes described)</i>	86
<i>Opening A Fixed Deposit (Details of the process flow)</i>	87
<i>Premature Discharge Of A Fixed Deposit</i>	88
TABLE STRUCTURING PRINCIPLES	88
<i>Actual Table Structures</i>	89
SCANNED BANKING MODEL FORMS	89
<i>Savings Accounts Opening Form</i>	89
<i>Fixed Deposit Opening Form</i>	90
<i>Current Account Opening Form</i>	93
<i>The Bank Account Deposit Slip</i>	94
<i>The Banks Withdrawal Slip</i>	94
<i>The Banks Cheque</i>	94

6. PROJECT PLANNING FOR THE RETAIL BANKING MODEL.....95

TABLE DEFINITIONS FOR RETAIL BANKING.....95

- Branches Of The Bank.....95*
- Employees Of The Bank.....95*
- Customers Of The Bank.....96*
- Accounts Opened With The Bank.....97*
- Account Opening Support Documents.....99*
- Fixed Deposits With The Bank.....99*
- Fixed Deposit Details.....101*
- Bank Account Nominee Information.....102*
- Bank Account Or Fixed Deposit Identity Details.....103*
- Bank Customers Address And Contact Information.....104*
- Banking Transactions.....105*
- Banking Transaction Details.....106*

ENTITY RELATIONSHIP DIAGRAM FOR RETAIL BANKING.....107

- Tracking A Customer's Or Nominee's Address And Contact Information.....108*
- Employee Details.....109*
- Nominee Details.....109*
- Fixed Deposits.....110*
- Banking Transactions.....110*
- The Complete Entity Relationships For Account Opening.....111*

SECTION – III: STRUCTURED QUERY LANGUAGE (SQL)

7. INTERACTIVE SQL PART - I.....113

TABLE FUNDAMENTALS.....113

- Oracle Data Types.....113*
- Basic Data Types.....113*
- Comparison Between Oracle 8i/9i For Various Oracle Data Types.....114*
- The CREATE TABLE Command.....117*
- Rules For Creating Tables.....117*
- A Brief Checklist When Creating Tables.....117*
- Inserting Data Into Tables.....118*

VIEWING DATA IN THE TABLES.....119

- All Rows And All Columns.....119*
- Filtering Table Data.....120*
- Selected Columns And All Rows.....120*
- Selected Rows And All Columns.....121*
- Selected Columns And Selected Rows.....121*

ELIMINATING DUPLICATE ROWS WHEN USING A SELECT STATEMENT.....122

SORTING DATA IN A TABLE.....123

CREATING A TABLE FROM A TABLE.....124

INSERTING DATA INTO A TABLE FROM ANOTHER TABLE.....125

- Insertion Of A Data Set Into A Table From Another Table.....125*

DELETE OPERATIONS	125
<i>Removal Of All Rows</i>	125
<i>Removal Of Specific Row(s)</i>	126
<i>Removal Of Specific Row(s) Based On The Data Held By The Other Table</i>	126
UPDATING THE CONTENTS OF A TABLE.....	126
<i>Updating All Rows</i>	127
<i>Updating Records Conditionally</i>	127
MODIFYING THE STRUCTURE OF TABLES	127
<i>Adding New Columns</i>	128
<i>Dropping A Column From A Table</i>	128
<i>Modifying Existing Columns</i>	128
<i>Restrictions on the ALTER TABLE</i>	129
RENAMING TABLES.....	129
TRUNCATING TABLES	129
DESTROYING TABLES.....	129
CREATING SYNONYMS.....	130
<i>Dropping Synonyms</i>	130
EXAMINING OBJECTS CREATED BY A USER.....	131
<i>Finding Out The Table/s Created By A User</i>	132
<i>Displaying The Table Structure</i>	132
SELF REVIEW QUESTIONS	133
HANDS ON EXERCISES	134
8. INTERACTIVE SQL PART – II	137
DATA CONSTRAINTS.....	137
<i>Applying Data Constraints</i>	137
TYPES OF DATA CONSTRAINTS	138
<i>I/O Constraints</i>	138
The PRIMARY KEY Constraint	138
PRIMARY KEY Constraint Defined At Column Level.....	138
PRIMARY KEY Constraint Defined At Table Level.....	139
The Foreign Key (Self Reference) Constraint	140
Insert Or Update Operation In The Foreign Key Table	141
Delete Operation On The Primary Key Table	141
FOREIGN KEY Constraint Defined At The Column Level.....	141
FOREIGN KEY Constraint Defined At The Table Level	142
FOREIGN KEY Constraint Defined With ON DELETE CASCADE	142
FOREIGN KEY Constraint Defined With ON DELETE SET NULL:	143
Assigning User Defined Names To Constraints	144
The Unique Key Constraint.....	145
UNIQUE Constraint Defined At The Column Level.....	146
UNIQUE Constraint Defined At The Table Level	147
<i>Business Rule Constraints</i>	147
Column Level Constraints	148
Table Level Constraints.....	148
NULL Value Concepts	148
Principles Of NULL Values	149
Difference Between An Empty String And A NULL Value	149
NOT NULL Constraint Defined At The Column Level	150
The CHECK Constraint.....	151

CHECK Constraint Defined At The Column Level	151
CHECK Constraint Defined At The Table Level.....	151
Restrictions On CHECK Constraints	153
DEFINING DIFFERENT CONSTRAINTS ON A TABLE.....	153
THE USER_CONSTRAINTS TABLE.....	154
DEFINING INTEGRITY CONSTRAINTS VIA THE ALTER TABLE COMMAND.....	154
DROPPING INTEGRITY CONSTRAINTS VIA THE ALTER TABLE COMMAND.....	155
DEFAULT VALUE CONCEPTS.....	155
SELF REVIEW QUESTIONS.....	156
HANDS ON EXERCISES	157
9. INTERACTIVE SQL PART - III.....	160
COMPUTATIONS DONE ON TABLE DATA	160
Arithmetic Operators.....	160
Renaming Columns Used With Expression Lists.....	161
Logical Operators	161
Range Searching	164
Pattern Matching.....	165
The use of the LIKE predicate.....	165
The Oracle Table - DUAL.....	168
SYSDATE.....	169
ORACLE FUNCTIONS.....	169
Function_Name(argument1, argument2,...).....	169
Group Functions (Aggregate Functions)	169
Scalar Functions (Single Row Functions)	169
Aggregate Functions	169
Numeric Functions	171
String Functions	174
Conversion Functions.....	179
DATE CONVERSION FUNCTIONS	180
DATE FUNCTIONS.....	180
MANIPULATING DATES IN SQL USING THE DATE()	182
TO_CHAR	183
TO_DATE.....	183
Special Date Formats Using TO_CHAR function.....	184
Use of TH in the TO_CHAR() function.....	184
Use of SP in the TO_CHAR() function.....	185
Use of 'SPTH' in the to_char function	185
MISCELLANEOUS FUNCTIONS	185
SELF REVIEW QUESTIONS	189
HANDS ON EXERCISES	190
10. INTERACTIVE SQL PART - IV	191
GROUPING DATA FROM TABLES IN SQL	191
The Concept Of Grouping	191
GROUP BY Clause.....	191
HAVING Clause	191
Determining Whether Values Are Unique.....	191
Group By Using The ROLLUP Operator.....	191
Grouping By Using The CUBE Operator.....	191

SUBQUERIES 198

- Using Sub-query In The FROM Clause 198
- Using Correlated Sub-queries 203
- Using Multi Column Subquery 204
- Using Sub-query in CASE Expressions 205
- Using Subquery In An ORDER BY clause 206
- Using EXISTS / NOT EXISTS Operator 206

JOINS 207

- Joining Multiple Tables (Equi Joins) 208
- Inner Join 208
- Adding An Additional WHERE Clause Condition 209
- Outer Join 214
- Cross Join 215
- Guidelines for Creating Joins 217
- Joining A Table To Itself (Self Joins) 219

CONCATENATING DATA FROM TABLE COLUMNS 219

USING THE UNION, INTERSECT AND MINUS CLAUSE 221

- Union Clause 222
- Intersect Clause 222
- Minus Clause 224

SELF REVIEW QUESTIONS 226

HANDS ON EXERCISES 227

ANSWERS TO SELF REVIEW QUESTIONS 228

SOLUTIONS TO HANDS ON EXERCISES 229

231

SECTION – IV: ADVANCE SQL

11. SQL PERFORMANCE TUNING 239

INDEXES 239

- Address Field In The Index 239
- Duplicate / Unique Index 240
- Creation Of An Index 243
- Creating Simple Index 243
- Creating Composite Index 243
- Creation of Unique Index 244
- Reverse Key Indexes 244
- Bitmap Indexes 245
- Function Based Index 246
- Key-Compressed Index 246
- Dropping Indexes 247

MULTIPLE INDEXES ON A TABLE 247

- Instances When The Oracle Engine Uses An Index For Data Extraction 248
- Instances When The Oracle Engine Does Not Use An Index For Data Extraction 248
- Too Many Indexes - A Problem 248

USING ROWID TO DELETE DUPLICATE ROWS FROM A TABLE 248

- Inner Select Statement 249
- Parent SQL Statement 249

USING ROWNUM IN SQL STATEMENTS.....251

Using ROWNUM To Limit Number Of Rows In A Query.....251

VIEWS.....251

 Creating View.....251

 Renaming The Columns Of A View.....252

 Selecting A Data Set From A View.....253

 Updateable Views.....253

 Views Defined From Multiple Tables (Which Have Been Created With A Referencing Clause).....254

 Common Restrictions On Updateable Views.....255

 Destroying A View.....256

CLUSTERS.....256

SEQUENCES.....257

 Creating Sequences.....258

 Keywords And Parameters.....258

 Referencing A Sequence.....259

 Altering A Sequence.....260

 Dropping A Sequence.....261

SNAPSHOTS.....261

 Creating A Snapshot.....261

 Altering A Snapshot.....263

 Dropping A Snapshot.....264

SELF REVIEW QUESTIONS.....265

HANDS ON EXERCISES.....268

12. SECURITY MANAGEMENT USING SQL.....269

 GRANTING AND REVOKING PERMISSIONS.....269

 Granting Privileges Using The GRANT Statement.....269

 Referencing A Table Belonging To Another User.....270

 Granting Privileges When A Grantee Has Been Given The GRANT Privilege.....270

 REVOKING PRIVILEGES GIVEN.....270

 Revoking Permissions Using The REVOKE Statement.....270

 SELF REVIEW QUESTIONS.....271

 HANDS ON EXERCISES.....272

13. OOPS IN ORACLE.....273

 ORACLE 9i DATABASE FLAVOURS.....273

 Why Should Objects Be Used?.....273

 OBJECT TYPES.....274

 Nested Tables.....275

 Varying Arrays.....275

 Large Objects.....276

 References.....276

 Object Views.....276

 FEATURES OF OBJECTS.....277

 Naming Conventions For Objects.....277

 A Common Object Example.....277

 The Structure Of A Simple Object.....279

 Inserting Records Into The CUSTOMER TABLE.....281

IMPLEMENTING OBJECT VIEWS.....	285
<i>Why Use Object Views?</i>	286
<i>Using A Where Clause In Object Views</i>	287
BENEFITS OF USING OBJECT VIEWS.....	287
<i>Manipulating Data Via Object Views</i>	288
NESTED TABLES.....	288
<i>An Introduction</i>	288
<i>Implement A Nested Table</i>	288
VARIABLE ARRAYS.....	290
<i>Creating A Varying Array</i>	290
<i>Describing the Varying Array</i>	291
<i>Data Manipulation</i>	292
REFERENCING OBJECTS.....	292
<i>Examples For The Use Of REF</i>	293
SELF REVIEW QUESTIONS.....	295
HANDS ON EXERCISES.....	297
14. ADVANCE FEATURES IN SQL * PLUS.....	299
CODE A TREE-STRUCTURED QUERY.....	299
CODE A MATRIX REPORT IN SQL.....	299
DUMP/ EXAMINE THE EXACT CONTENT OF A DATABASE COLUMN.....	300
WAYS TO DROP A COLUMN FROM A TABLE.....	301
WAYS TO RENAME A COLUMN IN A TABLE.....	302
VIEW EVERY NTH ROW FROM A TABLE.....	304
GENERATE PRIMARY KEY VALUES FOR A TABLE.....	304
ADD A DAY/HOUR/MINUTE/SECOND TO A DATE VALUE.....	306
COUNT DIFFERENT DATA VALUES IN A COLUMN.....	307
RETRIEVE ONLY ROWS X TO Y FROM A TABLE.....	308
CHANGE ORACLE PASSWORD.....	309
ADDING LINE FEEDS TO SELECT STATEMENT OUTPUT.....	309
TURNING NUMERIC TO ALPHABETS.....	311
CREATE A CSV OUTPUT.....	311
REPLACING NULL VALUES WITH MEANINGFUL OUTPUT.....	313
RETRIEVE RECORDS BASED ON SOUNDS.....	314
ANSWERS TO SELF REVIEW QUESTIONS.....	316
SOLUTIONS TO HANDS ON EXERCISES.....	318
SECTION – V: PL / SQL	
15. INTRODUCTION TO PL/SQL.....	320
ADVANTAGES OF PL/SQL.....	320
THE GENERIC PL/SQL BLOCK.....	321
<i>The Declare Section</i>	321
<i>The Begin Section</i>	321
<i>The Exception Section</i>	321
<i>The End Section</i>	321

THE PL/SQL EXECUTION ENVIRONMENT	321
<i>PL/SQL In The Oracle Engine</i>	321
PL/SQL	322
<i>The Character Set</i>	322
<i>Literals</i>	322
<i>PL/SQL Data Types</i>	323
<i>Variables</i>	324
<i>Constants</i>	324
<i>LOB Types</i>	325
<i>Logical Comparisons</i>	326
<i>Displaying User Messages On The VDU Screen</i>	326
<i>Comments</i>	326
CONTROL STRUCTURE.....	326
<i>Conditional Control</i>	326
<i>Iterative Control</i>	328
<i>Sequential Control</i>	331
SELF REVIEW QUESTIONS.....	332
16. PL / SQL TRANSACTIONS	334
ORACLE TRANSACTIONS.....	334
<i>Closing Transactions</i>	334
<i>Creating A SAVEPOINT</i>	334
PROCESSING A PL/SQL BLOCK.....	336
<i>Oracle And The Processing Of SQL Statements</i>	336
WHAT IS A CURSOR?	336
<i>Types Of Cursors</i>	337
<i>Implicit Cursor</i>	338
<i>Implicit Cursor Processing in Client Server Environment</i>	338
<i>Implicit Cursor Attributes</i>	338
<i>Explicit Cursor</i>	340
<i>The Functionality Of Open, Fetch And Close Commands</i>	340
<i>Explicit Cursor Attributes</i>	342
CURSOR FOR LOOPS.....	346
PARAMETERIZED CURSORS.....	348
<i>Declaring A Parameterized Cursor</i>	348
<i>Opening A Parameterized Cursor And Passing Values To The Cursor</i>	348
SELF REVIEW QUESTIONS	350
HANDS ON EXERCISES	352
17. PL/SQL SECURITY	353
LOCKS.....	353
<i>Oracle's Default Locking Strategy – Implicit Locking</i>	353
<i>Types Of Locks</i>	353
<i>Levels Of Locks</i>	354
<i>Explicit Locking</i>	355
<i>The SELECT ... FOR UPDATE Statement</i>	355
<i>Using Lock Table Statement</i>	356
<i>Releasing Locks</i>	357
<i>Explicit Locking Using SQL And The Behavior Of The Oracle Engine</i>	358

<i>Explicit Locking Using PL/SQL And The Oracle Engine</i>	366
<i>Deadlock</i>	368
ERROR HANDLING IN PL/SQL	369
ORACLE'S NAMED EXCEPTION HANDLERS	370
<i>USER-Named Exception Handlers</i>	371
<i>User Defined Exception Handlers (For I/O Validations)</i>	372
<i>User Defined Exception Handling (For Business Rule Validations)</i>	374
SELF REVIEW QUESTIONS	377
HANDS ON EXERCISES	378
18. PL/SQL DATABASE OBJECTS	379
<i>What Are Procedures / Functions?</i>	379
<i>Declarative Part</i>	379
<i>Executable Part</i>	379
<i>Exception Handling Part</i>	379
WHERE DO STORED PROCEDURES AND FUNCTIONS RESIDE?	379
<i>How Does The Oracle Engine Create A Stored Procedure / Function?</i>	379
<i>How Does The Oracle Engine Execute Procedures / Functions?</i>	380
ADVANTAGES OF USING A PROCEDURE OR FUNCTION.....	380
PROCEDURES VERSUS FUNCTIONS.....	381
<i>Creating Stored Procedure</i>	381
Keywords And Parameters	381
<i>Creating A Functions</i>	382
Keywords and Parameters	382
<i>Using A Function</i>	383
<i>Using A Procedure</i>	385
FINALLY A COMMIT IS FIRED TO REGISTER THE CHANGES	387
DELETING A STORED PROCEDURE OR FUNCTION	387
ORACLE PACKAGES	387
<i>Components Of An Oracle Package</i>	388
<i>Why Use Packages?</i>	388
<i>Package Specification</i>	388
<i>Creating Packages</i>	389
<i>Invoking A Package Via The Oracle Engine</i>	392
<i>The Syntax For Dot Notation</i>	392
<i>Alterations To An Existing Package</i>	393
<i>Package Objects - Private V/S Public</i>	393
<i>Variables, Cursors And Constants</i>	394
<i>Package State</i>	394
<i>Package Dependency</i>	394
OVERLOADING PROCEDURES AND FUNCTIONS	397
<i>Overloading Built-In PL/SQL Functions And Procedures</i>	398
<i>Benefits Of Overloading</i>	399
<i>Where To Overload Functions And Procedures</i>	399
<i>Restrictions On Overloading</i>	399
<i>Function Or Procedure Overloading</i>	402

DATABASE TRIGGERS	403
<i>Introduction</i>	403
<i>Use Of Database Triggers</i>	403
<i>Database Triggers V/S Procedures</i>	403
<i>Database Triggers V/S Declarative Integrity Constraints</i>	404
<i>How To Apply Database Triggers</i>	404
TYPES OF TRIGGERS	404
<i>Row Triggers</i>	404
<i>Statement Triggers</i>	405
<i>Before V/S After Triggers</i>	405
<i>Before Triggers</i>	405
<i>After Triggers</i>	405
<i>Combinations Triggers</i>	405
Keywords And Parameters	406
DELETING A TRIGGER	407
<i>Applications Using Database Triggers</i>	407
RAISE_APPLICATION_ERROR PROCEDURE	412
GENERATING A PRIMARY KEY USING A DATABASE TRIGGER	414
<i>Introduction</i>	414
<i>Automatic Primary Key Generation</i>	414
<i>Generating Primary Key Using Sequences</i>	414
<i>Generating Primary Key Using The MAX Function</i>	415
<i>Generating Primary Key Using A Lookup Table</i>	416
DBMS_SQL	417
<i>Processing Of An SQL Sentence In The Oracle Engine</i>	417
<i>What Is Parsing?</i>	417
<i>Opening A Cursor</i>	418
<i>What Is Data Binding?</i>	419
<i>Defining A Column</i>	419
<i>Executing A Query And Fetching Data From The Underlying Tables Into The Cursor</i>	419
<i>Positioning The Cursor On A Specific Row</i>	419
<i>Getting Values From The Specified Row</i>	419
<i>Processing Of Data</i>	419
<i>Closing The Cursor</i>	419
<i>General Flow Of Dynamic SQL</i>	420
<i>The DEFINE_COLUMN Procedure</i>	423
APPLICATIONS USING DYNAMIC SQL	425
<i>Primary Key Validation</i>	425
<i>Data Definition Language Programs</i>	427
