

SYSTEM ANALYSIS AND DESIGN

Dr. M.P. Thapliyal

CONTENTS

<i>Foreward</i>	<i>v</i>
<i>Preface</i>	<i>vii</i>
<i>Acknowledgement</i>	<i>ix</i>
1. Introduction.	1-4
2. System Concepts.	5-18
3. System Life Cycle.	19-25
4. Role of System Analyst.	26-42
5. Approaches to System Development.	43-49
6. Preliminary Study.	50-60
7. Feasibility Studies.	61-72
8. Methods of Investigation.	73-80
9. Recording the Investigation.	81-110
10. File Design.	111-124
11. Computer Procedure Design.	125-132
12. Code Design.	133-137
13. Implementation, Evaluation and Maintenance of System	138-146
14. System Security.	147-151
15. Structured Analysis and Design.	152-174
