

THE ECONOMICS OF DEVELOPMENT AND PLANNING

M.L. JHINGAN

40th Edition

BRIEF CONTENTS

PART ONE – BASIC PROBLEMS

1	Economics of Development : Concepts and Approaches	3
2	Economic Growth and Income Distribution : The Kuznets Hypothesis	24
3	Sustainable Development	29
4	Characteristics of An Underdeveloped Country	38
5	Obstacles to Economic Development	50
6	Factors of Economic Growth: Economic and Non-Economic	56
7	Chenery's Patterns of Structural Change	68
8	Meaning and Characteristics of Modern Economic Growth	72

PART TWO – SOME THEORIES OF ECONOMIC DEVELOPMENT

9	Adam Smith's Theory	83
10	The Ricardian Theory	88
11	The Malthusian Theory	94
12	Mill's Theory	101
13	The Classical Theory	106
14	The Marxian Theory	109
15	The Schumpeterian Theory	117
16	The Keynesian Theory	124
17	Marx' Stages of Growth	131
18	Rostow's Stages of Economic Growth	136
19	Gerchenkron's Great Spurt Theory	147
20	Nurkse's Theory of Disguised Unemployment as a saving potential	152
21	Lewis Theory of Unlimited Supplies of labour	159
22	Fei-Ranis Theory	165
23	Jorgenson's Neo-Classical Model of a Dual Economy	172
24	Harris-Todaro Model of Migration and Unemployment	179
25	Leibenstein's Critical Minimum Effort Thesis	186
26	Nelson's Low-Level Equilibrium Trap	192
27	The "Big Push" Theory	195
28	The Doctrine of Balanced Growth	199
29	The Concept of Unbalanced Growth	206
30	Dualistic Theories	213
31	The Dependency Theory of Underdevelopment	223
32	The Limits to Growth Model	233
33	Myrdal's Theory of Circular Causation	238

PART THREE – SOME GROWTH MODELS

34	The Harrod-Domar Models	245
35	The Kaldor Model of Distribution	257

36	The Pasinetti Model of Profit and Growth	
37	Joan Robinson's Model of Capital Accumulation	
38	Meade's Neo Classical Model of Economic Growth	
39	The Solow Model of Long Run Growth	
40	Kaldor's Model of Growth	
41	The Models of Technical Change	
42	The Uzawa Two Sector Growth Model	
43	The von Neumann Growth Model	
44	Steady State Growth	
45	The Golden Rule of Accumulation	
46	Growth Accounting	
47	The new Endogenous Growth Theory	
48	The Cambridge Capital Controversy in The Neo-classical Analysis of Growth	
49	The Fel'dman Model	
50	The Mahalanobis Model	

PART FOUR – DOMESTIC MEASURES FOR ECONOMIC DEVELOPMENT

51	Capital Formation and Economic Development	
52	Role of Agriculture and Industry in Economic Development	
53	Monetary Policy in Economic Development	
54	Fiscal Policy in Economic Development	
55	Deicit Financing as an Instrument of Economic Development	
56	Price Policy in Economic Development	
57	Population Growth and Economic Development	
58	Human Capital Formation and Manpower	
59	Entrepreneurship in Economic Development	
60	Role of the State in Economic Development	

PART FIVE – INTERNATIONAL MEASURES FOR ECONOMIC DEVELOPMENT

61	Foreign Trade and Economic Development	
62	The Debt Problem of LDCs	
63	New International Economic order (NIEO)	
64	Commercial Policy and Economic Development	
65	WTO and Developing Countries	
66	Foreign Capital and Aid in Economic Development	
67	Two-Gap Model and Costs-Benefits of Foreign Aid	
68	Private Foreign Investment and Multinationals	
69	Economic Integration Among Development Countries	
70	Millennium Development Goals (MDGs)	

PART SIX – SOME PROBLEMS OF DEVELOPMENT PLANNING

71	Economic Planning	
72	Shadow Prices	
73	Project Evaluation and Cost-Benefit Analysis	
74	Controls under Planning	
75	Input-Output Analysis	
76	Linear Programming	
77	The Concept of Capital-Output Ratio	
78	The Choice of Techniques	
79	Transfer of Technology	
80	Investment Criteria in Economic Development	
81	Economic Planning and Price Mechanism	

Bibliography

CONTENTS

PART ONE – BASIC PROBLEMS

Chapter-1

Economics of Development : Concepts and Approaches

3

Introduction	3
Economic Development and Economic Growth	4
Measurement of Economic Development	5
Basic Needs vs Economic Growth	10
Conclusion	11
Human Development Indices	12
Physical Quality of Life Index (PQLI)	12
Construction of PQLI	14
Human Development Index (HDI)	15
Constructing the Human Development Index (HDI)	18
Development Economics in Retrospect	19

Chapter-2

Economic Growth and Income Distribution : The Kuznets Hypothesis

24

The Kuznets Hypothesis	24
Causes of Increase in Inequality with Development	26
Causes of Reduction in Inequality with Development	27
Its Critical Appraisal	27

Chapter-3

Sustainable Development

29

Meaning	29
Objectives of Sustainable Development	30
Environmental Problems	30
Causes of Environmental Degradation	32
Policies for Sustainable Development	33
Measuring Sustainable Development	35

Chapter-4
Characteristics of An Underdeveloped Country

Meaning of the term 'Underdeveloped'

Different Criteria of Underdevelopment

Characteristics of an Underdeveloped Country

General Poverty

Agriculture, the Main Occupation

A Dualistic Economy

Underdeveloped Natural Resources

Demographic Features

Unemployment and Disguised Unemployment

Economic Backwardness

Lack of Enterprise and Initiative

Insufficient Capital Equipment

Technological Backwardness

Foreign Trade Orientation

Chapter-5
Obstacles to Economic Development

Vicious Circles of Poverty

Low Rate of Capital Formation

Socio-cultural Constraints

Agricultural Constraint

Human Resources Constraint

Foreign Exchange Constraint

Chapter-6
Factors of Economic Growth: Economic and Non-Economic

Economic Factors

Non-Economic Factors

Social Factors

Human Factor

Political and Administrative Factors

Chapter-7
Chenery's Patterns of Structural Change

Introduction

Development Processes

Accumulation Processes

Resource Allocation Processes

Demographic and Distributional Processes

Conclusion

Chapter-8
Meaning and Characteristics of Modern Economic Growth

Meaning

Characteristics of Modern Economic Growth

High Rates of Growth of Per Capita Product and Population

	81
The Rise in Productivity	74
High Rate of Structural Transformation	75
Urbanisation	76
The Outward Expansion of Developed Countries	77
International Flow of Men, Goods and Capital	77
Conclusion	80

PART TWO - SOME THEORIES OF ECONOMIC DEVELOPMENT

**Chapter-9
Adam Smith's Theory** 83

The Theory	83
A Critical Appraisal	86
Its Applicability to Underdeveloped Countries	87

**Chapter-10
The Ricardian Theory** 88

Ricardo's Theory	88
A Critical Appraisal	92
Underdeveloped Countries and Ricardo's Theory	93

**Chapter-11
The Malthusian Theory** 94

The Theory	94
Measures to Promote Economic Development	96
A Critical Appraisal	98
Its Applicability to Underdeveloped Countries	99

**Chapter-12
Mill's Theory** 101

Introduction	101
The Theory	102
A Critical Appraisal	104
Applicability of Mill's Theory on Underdeveloped Countries	104

**Chapter-13
The Classical Theory** 106

The Theory	106
Its Criticisms	107

**Chapter-14
The Marxian Theory** 109

Introduction	109
The Marxian Theory	110
The Marxian Process of Economic Development	110

Downfall of Capitalism 113
 A Critical Appraisal 114
 The Marxian Theory and Underdeveloped Countries 115

Chapter-15
The Schumpeterian Theory

The Theory 117
 Criticisms of the Theory 117
 Schumpeter's Analysis and Underdeveloped Countries 121

Chapter-16
The Keynesian Theory

Summary of Keynes Theory 124
 Applicability of Keynes' Theory to Underdeveloped Countries 124
 Keynesian Assumptions and Underdeveloped Countries 125
 Tools of Keynesian Economics and Underdeveloped Countries 126

Chapter-17
Marx' Stages of Growth

The Primitive Communal Stage 131
 The Slave Stage 132
 The Feudal Stage 132
 The Capitalist Stage 133
 The Socialist or Communist Stage 133
 Marx vs. Rostow 134

Chapter-18
Rostow's Stages of Economic Growth

The Traditional Society 136
 The Pre-conditions for Take-off 136
 The Take-off 137
 The Drive to Maturity 138
 The Age of High Mass-Consumption 141
 Criticism of the Stages of Economic Growth 141
 Importance and Limitations of Take-off for Underdeveloped Countries 142
 The Take-Off and India 144

Chapter-19
Gerchenkron's Great Spurt Theory

Gerschenkron's Great Spurt Theory 147
 Six Generalisations 147
 Common Characteristics of Nations 148
 How to Bring About the Great Spurt? 148
 Critical Appraisal 150
 Gerschenkron vs. Rostow 151

Chapter-20
Nurkse's Theory of Disguised Unemployment as a Saving Potential **152**

Meaning of Disguised Unemployment 152
 Nurkse's Theory 153
 Limitations of the Concept 155
 A Realistic View 157

Chapter-21
Lewis Theory of Unlimited Supplies of labour **159**

The Lewis Theory 159
 A Critical Appraisal 163

Chapter-22
Fei-Ranis Theory **165**

The Theory 165
 Assumptions 166
 A Critical Appraisal 170

Chapter-23
Jorgenson's Neo-Classical Model of a Dual Economy **172**

The Jorgenson Model 172
 Assumptions of the Model 173
 Conclusion 176
 A Critical Appraisal 177
 Jorgenson Vs. Fei-Ranis 178

Chapter-24
Harris-Todaro Model of Migration and Unemployment **179**

Assumptions of the Model 179
 The Model 180
 Policy Implications of the H-T Model 183
 Its Critical Appraisal 184

Chapter-25
Leibenstein's Critical Minimum Effort Thesis **186**

Leibenstein's Theory 186
 A Critical Appraisal 190

Chapter-26
Nelson's Low-Level Equilibrium Trap **192**

Nelson's Theory 192
 Sets of relations 193
 Factors that Avoid Trap 194

Chapter-27 The "Big Push" Theory

Rosenstein-Rodan's Thesis	198
Indivisibilities in the Production Function	198
Indivisibility of Demand	198
Indivisibility in the Supply of Savings	198
A Critical Appraisal	198

Chapter-28 The Doctrine of Balanced Growth

Meaning of Balanced Growth	198
Explanation of the Theory	198
Criticisms of the Doctrine of Balanced Growth	198

Chapter-29 The Concept of Unbalanced Growth

Introduction	206
Hirschman's Strategy	206
A Critical Appraisal	206
Its Limitations	209
Balanced Vs. Unbalanced Growth	210
Conclusion	211

Chapter-30 Dualistic Theories

Social Dualism	213
Technological Dualism	213
A Critical Appraisal	217
Financial Dualism	219

Chapter-31 The Dependency Theory of Underdevelopment

Introduction	223
Meaning of Dependency	223
The Dependency Theory	224
Dependency : A Historical International Process	224
Foreign Capital	225
Technological Dependence	225
Trade and Unequal Exchange	226
Dualism	226
Policy Implications of Dependency Theory	227
Critical Appraisal	228
Emmanuel's Theory of Unequal Exchange	229

Chapter-32 The Limits to Growth Model

233

Introduction	233
The Model	234
Predictions of the Model	234
Its Graphic Explanation	235
Its Criticisms	235
Its Implications	237
Conclusion.....	237

Chapter-33
Myrdal's Theory of Circular Causation 238

Introduction	238
The Myrdal Thesis	239
Regional Inequalities	239
International Inequalities	241
A Critical Appraisal.....	242

PART THREE - SOME GROWTH MODELS

Chapter-34
The Harrod-Domar Models 245

Introduction	245
Requirements of Steady Growth	245
Assumptions	246
The Domar Model	246
The Harrod Model	247
A Comparative Study of the Two Models	251
Limitations of these Models	252
Application of Harrod-Domar Models to Underdeveloped Countries	253
Limitations of these Models from the Standpoint of Underdeveloped Countries	254

Chapter-35
The Kaldor Model of Distribution 257

The Kaldor Model	257
Its Criticisms	260

Chapter-36
The Pasinetti Model of Profit and Growth 262

The Model	262
Comparison with the Kaldor Model	265

Chapter-37
Joan Robinson's Model of Capital Accumulation 266

The Robinson Model	266
A Critical Appraisal.....	270
Its Weaknesses	270
Its Applicability to Underdeveloped Countries	271

Chapter-38
Meade's Neo-Classical Model of Economic Growth

- The Meade Model
- A Critical Appraisal

Chapter-39
The Solow Model of Long-Run Growth

- Introduction
- Assumptions
- The Model
- A Critical Appraisal
- Weaknesses
- Applicability of Solow Model to Underdeveloped Countries

Chapter-40
Kaldor's Model of Growth

- Introduction
- Assumptions
- The Model
- A Critical Appraisal

Chapter-41
The Models of Technical Change

- Introduction
- Neutral and Non-Neutral Technical Change
- Hicks Neutrality
- Its Criticisms
- Hicks Non-Neutral Technical Change
- Disembodied and Embodied Technical Change
- Embodied Technical Change Model-Vintage Approach

Chapter-42
The Uzawa Two-Sector Growth Model

- The Uzawa Model
- Equations of The Model³
- Working of the Model
- A Critical Appraisal

Chapter-43
The von Neumann Growth Model

- The Neumann Growth Model
- A Critical Appraisal

Chapter-44	312
Steady State Growth	
Meaning	312
Properties of Steady State Growth	313
Flexibility of n	313
Flexible Capital-Output Ratio (v)	315
Flexibility of Saving Ratio (s)	315
Flexible Saving Ratio (s) and Flexible Capital-Output Ratio (v)	316
Technical Progress	
Chapter-45	318
The Golden Rule of Accumulation	
Introduction	318
The Golden Rule Path	319
Representation of the Golden Rule	320
The Neoclassical Case	321
Chapter-46	323
Growth Accounting	
Introduction	323
Solow's Sources of Growth	324
Its Criticisms	325
Denison's Sources of Growth	325
Its Criticisms	327
Jorgenson-Griliches' Sources of Growth	328
Measurement of Sources of Growth	329
Its Criticisms	330
Chapter-47	331
The New Endogenous Growth Theory	
Introduction	331
The Solow-Swan Model	332
Implications of the Model	334
The Convergence-Divergence Controversy	334
Absolute or Unconditional Convergence	335
Empirical Evidence	335
Conditional Convergence	336
Empirical Evidence	336
Conclusion	337
Arrow's Learning by Doing and Other Models	338
The Lucas Model	339
Romer's Model of Technological Change	340
Criticisms of New Growth Theory	341
Policy Implications of New Growth Theory	342
Implications for Developing Countries	342

Chapter-48
The Cambridge Capital Controversy in The Neo-classical Analysis of Growth

- Introduction
- The Capital Controversy
- The Neo-Classical Capital Theory
- Assumptions
- The Cambridge Criticisms
- Joan Robinson's Critique
- Samuelson's Critique and the Surrogate Production Function
- Assumptions
- Surrogate Production Function
- Its Criticisms
- More about the Cambridge Critique
- Conclusion

Chapter-49
The Fel'dman Model

- The Model
- Comparison with the Domar Model
- Implications for Economic Development

Chapter-50
The Mahalanobis Model

- Introduction
- Two-Sector Model
- Relation of the Mahalanobis Two-Sector Model with the Domar Model
- Four-Sector Model
- A Critical Appraisal

PART FOUR – DOMESTIC MEASURES FOR ECONOMIC DEVELOPMENT

Chapter-51
Capital Formation and Economic Development

- Meaning of Capital Formation
- Importance of Capital Formation
- Reasons for Low Rate of Capital Formation
- Sources of Savings
- Sources of Capital Formation

Chapter-52
Role of Agriculture and Industry in Economic Development

- Agriculture and Economic Development
- Role of Industrialisation
- A Critical Appraisal
- Interrelationship between Agricultural and Industrial Development

Chapter-53		
Monetary Policy in Economic Development		388
Meaning and Importance		388
Main Features of Monetary Policy		388
Chapter-54		
Fiscal Policy in Economic Development		393
Meaning and Importance		393
Taxation as the Most Effective Instrument of Fiscal Policy		398
Role of Public Borrowing in Economic Development		401
Role of Public Expenditure in Economic Development		402
Chapter-55		
Deficit Financing as an Instrument of Economic Development		404
Meaning		404
Role of Deficit Financing		405
Its Adverse Effects		406
Safe Limits of Deficit Financing		409
Chapter-56		
Price Policy in Economic Development		411
The Nature of Price Policy		411
Objectives of Price Policy		411
Chapter-57		
Population Growth and Economic Development		415
Introduction		415
Effects of Population Growth on Economic Development		415
Factors Promoting Economic Development		416
Factors Retarding Economic Development		417
The Theory of Demographic Transition		420
Its Criticisms		422
Chapter-58		
Human Capital Formation and Manpower		424
Meaning and Importance of Human Capital Formation		424
Problems of Human Capital Formation		426
Criteria for Investment in Human Capital		428
Manpower Planning in LDCs		432
Manpower Shortage		432
Manpower Surplus		433
Strategy for Manpower Planning		434
Estimating Future Manpower Requirements		436

Chapter-59
Entrepreneurship in Economic Development

- Role of the Entrepreneur
- Factors Impeding the Growth of Entrepreneurship
- How to Encourage Entrepreneurship

Chapter-60
Role of the State in Economic Development

- Introduction
- Changes in Institutional Framework
- Organisational Changes
- Social and Economic Overheads
- Agricultural Development
- Industrial Development
- Monetary and Fiscal Policies
- Increase in Foreign Trade

PART FIVE - INTERNATIONAL MEASURES FOR ECONOMIC DEVELOPMENT

Chapter-61
Foreign Trade and Economic Development

- Introduction
- Importance of Foreign Trade
- Direct Benefits
- Indirect Benefits
- Its Criticisms
- Overview
- Conclusion

Chapter-62
The Debt Problem of LDCs

- Introduction
- The Debt Crisis
- Causes of the Debt Crisis
- Measure to Solve the Debt Crisis
- Long-Term Suggestions

Chapter-63
New International Economic order (NIEO)

- Origin
- Objectives (or Features) of NIEO
- Implementation of NIEO Programme
- Conclusion

Chapter-64		
Commercial Policy and Economic Development		473
<hr/>		
Meaning		473
Arguments For and Against		473
Export Promotion Vs. Import Substitution		485
Conclusion		486
Chapter-65		
WTO and Developing Countries		487
<hr/>		
Introduction		487
The WTO		487
Its Objectives		488
Its Functions		488
WTO Agreement		489
WTO and Developing Countries		489
The Doha Round		490
Chapter-66		
Foreign Capital and Aid in Economic Development		493
<hr/>		
Types of Foreign Aid		493
Role of Foreign Aid In Economic Development		494
Case For Foreign Aid		495
Case Against Foreign Aid		497
Tied Vs. Untied Aid		498
Factors Determining the Amount of Foreign Aid for Economic Development		500
Aid or Trade		502
Chapter-67		
Two-Gap Model and Costs-Benefits of Foreign Aid		504
<hr/>		
Two-Gap Model		504
Its Limitations		506
Importance of Two-Gap Analysis		507
Costs and Benefits of Aid		508
Its Implications		510
Chapter-68		
Private Foreign Investment and Multinationals		511
<hr/>		
Nature		511
Merits of Private Foreign Investment		511
Demerits of Private Foreign Investment		512
Multinational Corporations and LDCs		513
Meaning		513
Spread of MNCs		514
Merits of MNCs		514
Demerits of MNCs		515
An Overview		516

**Chapter-69
Economic Integration Among Development Countries**

- Need for Economic Integration
- Benefits from Economic Integration
- Problems of Economic Integration
- Measures to Encourage Economic Integration among Developing Countries
- Conclusion

**Chapter-70
Millennium Development Goals (MDGs)**

- Introduction
- Goals and Targets
- Strategies
- How to Achieve the Goals
- Implementation of Millennium Development Goals (MDGs) in India
- Progress of Millennium Development Goals

PART SIX - SOME PROBLEMS OF DEVELOPMENT PLANNING

**Chapter-71
Economic Planning**

- Meaning of Economic Planning
- Need for Planning in Underdeveloped Countries
- Plan Formulation and Requisites for Successful Planning
- Problems of Development Planning
- Planning by Direction and Planning by Inducement
- Financial and Physical Planning
- Perspective Planning and Annual Planning
- Indicative Planning and Imperative Planning
- Democratic Planning and Totalitarian Planning
- Rolling and Fixed Plans
- Planning under Capitalism and Socialism
- Centralised and Decentralised Planning
- Corrective Planning and Development Planning
- Planning in a Mixed Economy
- Planning Models

**Chapter-72
Shadow Prices**

- Introduction
- Need For the Use of Shadow Prices
- Meaning of Shadow Prices
- Determination of Shadow Prices
- Difficulties of Shadow Price
- Uses of Shadow Prices

Chapter-73	
Project Evaluation and Cost-Benefit Analysis	569
<hr/>	
Meaning	569
Its Stages	570
Methods of Evaluation	570
Cost benefit Analysis	570
Evaluation on the basis of Cost-Benefit Criteria	571
Evaluation on the Basis of Benefits	576
Evaluation on the Basis of Costs	577
Importance of Data for Evaluation	577
Limitations of Cost-Benefit Analysis	578
Use of Cost-Benefit Analysis in Developing Countries	579
Its Difficulties	579
Use of Cost-Benefit Analysis in India	580
Some Suggestions	581
Chapter-74	
Controls under Planning	582
<hr/>	
Need for Controls	582
Types of Controls	583
Aims of Physical Controls	583
Limitations of Physical Controls	587
Chapter-75	
Input-Output Analysis	590
<hr/>	
Meaning	590
Use of Input-Output Model in Planning	591
Feasibility and Consistency of the Plan	592
The Leontief Solution	594
The Dynamic Input-Output Model	585
Limitations of Input-Output Analysis	596
Use of Input-Output Technique in Planning	597
Chapter-76	
Linear Programming	599
<hr/>	
Meaning	599
Conditions and Generalisations	600
Assumptions	600
Programming Technique—Its Application in Planning	601
Limitations of Linear Programming	602
Uses of Linear Programming in Planning	603
Chapter-77	
The Concept of Capital-Output Ratio	605
<hr/>	
Meaning	605
Capital-Output Ratio in Underdeveloped Economies	606
Factors Determining Capital-Output Ratio	607
Nature of Capital-Output Ratio	609

Case for Low or High Capital-Output Ratio
 Limitations
 Importance in Planning.....

Chapter-78
The Choice of Techniques

Meaning
 Process of Technological Development.....
 Labour-intensive Techniques
 Capital-intensive. Modern Techniques
 Use of Abandoned Techniques of Advanced Countries
 Intermediate Technology
 Appropriate Technology
 Labour-intensive vs Capital-intensive Techniques
 Conclusion

Chapter-79
Transfer of Technology

Introduction
 Need for Transfer of Technology.....
 Channels of Technology Transfer
 Problems in Technology Transfer.....
 Appropriate Package of Technology Transfer.....

Chapter-80
Investment Criteria in Economic Development

Introduction
 The Capital-Turnover Criterion.....
 The Social Marginal Productivity Criterion
 The Reinvestment Criterion
 The Time Series Criterion
 Conclusion

Chapter-81
Economic Planning and Price Mechanism

Introduction
 Price Mechanism in a Planned Economy
 Price Mechanism in an Underdeveloped Economy.....

Bibliography
