CONTENTS

CHAPTER	PAGE
PREFACE	v

PART I

VISUALIZING THE BUSINESS

INTRODUCTION	3
I PATTERN AND MEASUREMENT OF THE ECONOMIC FLOW	8
The Economic Flow Chart – Fundamentals of the Accounting Process	
II FINANCIAL STATEMENTS	43
The Balance Sheet – The Profit and Loss Statement – Proprietor- ship – Definition of Terms Used in Reading the Financial State- ments – Conclusion	

CONTENTS

CHAPTER	PAGE
III INTERPRETATION OF FINANCIAL STATEMENTS	61
Financial Ratios – Federal Trade Commission Reports of Financial Ratios – Predetermined Standards	
IV SALES-EXPENSE RELATIONSHIPS	84
The Profit and Loss Chart – The Break-even Chart – The Break-even Chart in Terms of the Quantity of Goods Produced – The Sales-mixture Chart – Differential Profit Control	
V CHARTS OF BUSINESSES AND INDUSTRIES	130
Profit and Loss Charts – Break-even Charts	
VI APPLICATIONS—PROBLEMS OF INVESTMENT	163
Investigation Prior to Financing a Business – Comparisons of Two or More Companies as to Earnings – The Effect of Plant Design on the Economic Characteristics of a Business – The Effect of Federal Income Taxes on Earnings – The Merger of Two Companies	
VII APPLICATIONS—PROBLEMS OF MANAGEMENT	182
Control of Expenses – Adaptation to Expense Changes – Adaptation to Change in Selling Price – Appendix	

PART II

INDUSTRIAL COST CHARACTERISTICS

INTRODUCTION	223
VIII BASIC CALCULATIONS IN THE USE OF MONEY	225
The Earning Potential of Money – Simple Interest – Compound Interest – The Present Worth, at Compound Interest, of a Future Sum of Money – Sinking Fund Deposits – Capital Recovery – Equivalence – When to Include Interest – Applications	
IX DEPRECIATION	252
Depreciation Methods – The Straight-line Method – The Production Method – The Sinking-fund Method – The Declining-balance Method – The Sum of the Years-Digits Method – The Accelerated Amortization Program – The Book Value of a Depreciated Asset – Causes of Depreciation – General Considerations: The Trend toward Rapid Depreciation	
X PRINCIPLES OF EXPENSE CLASSIFICATION	272
Categories and Classes – Manufacturing Expense – Selling Expense – Administrative Expense – Summary	
XI PRINCIPLES OF EXPENSE ALLOCATION	288
Pattern Variation – The Allocation of the Prime Costs – The Allocation of Factory Expense – The Allocation of Selling and Administrative Expense, Its Limitations	

CONTENTS

CHAPTER	PAGE
XII COSTS PER UNIT OF OUTPUT	314
Types of Unit Costs – Average Costs of Identical Commercial Units of Product – Definitions – The Nature of the Cost Items – The Cost per Unit of Output Resulting from a Specific Operation – The Cost per Unit of Output as Affected by the Conditions of Operations – The Cost of a Finished Piece Part – The Cost of a Finished Machine – Application of Theory of Unit Costs	
XIII RELATIVE WORTH OF ALTERNATIVES	333
The Determination of the Relative Worth of Several Competitive Machines – The Economic Life Span of Machinery – The Economic Lot Size – Mathematical Methods in Management Programming	

PART III

THE BUSINESS AS PART OF THE NATIONAL PLANT

INTRODUCTION	367
XIV THE DOLLAR AS AN ECONOMIC YARDSTICK	372
Monetary Inflation – Credit Inflation – Consequences of Inflation	
XV PRODUCTION AND EFFECTIVE DEMAND	393
Population – Purchasing Power – General Conclusion	
XVI INDUSTRIAL EXPANSION—CONCLUSION	436
The Influence of Research – The Competitive Market – Growth in the Use of Products Manufactured – The Introduction of Standardization – Conclusion	
PROBLEMS	451
INDEX	481
