Introduction 1

## Part I BARTER TRADE BETWEEN FULLY EMPLOYED BARTER ECONOMIES

### 1. A Simple Closed Economy 5

1. The Formal Model, 5 / 2. The Fundamental Duality Relations, 13 / 3. Other Properties of the Model, 19 / 4. Taxation and Relative Factor Rewards, 21 / Problems, 26 / References, 28 / Appendix\*, 30.

### 2. A Simple Open Economy 52

1. The Implications of Technical Improvements, 53 / 2. The Implications of a Change in the Terms of Trade, 60 / 3. The Implications of a Tariff, 64 / 4. Some Implications of an Excise Tax, 67 / Problems, 68 / References, 69.

### 3. A Trading World 71

1. A model of a Trading World, 71 / 2. Properties of Trading Equilibria—The Heckscher-Ohlin Theorem, 74 / 3. Properties of Trading Equilibria—The Equalization of Factor Rewards, 77 / 4. Properties of Trading Equilibria—Stability, 83 / Problems, 87 / References, 90 / Appendix\*, 92.

Contents

vii

### 4. A Trading World—Comparative Statics 95

1. Tariff Changes, 95 / 2. Demand Shifts, 98 / 3. International Transfers, 102 / 4. Economic Expansion, 104 / Problems, 113 / References, 116.

### 5.\* Variable Factor Supply and the Theory of International Trade 119

1. The Formal Model—Revised Version, 120 / 2. The Relationships Between Commodity Prices, Factor Prices, and Outputs, 122 / 3. The Offer Curve, 127 / 4. Geometric Illustrations, 129 / Problems, 132 / References, 133.

### 6.\* Non-Traded Commodities 134

1. Basic Relationships, 135 / 2. The Offer Curve, 138 / 3. The Terms of Trade, The Balance of Payments and Unilateral Transfers, 141 / 4. Tariff Changes, 142 / 5. Changes in Factor Endowments, 144, / 6. Final Comments, 146 / Problems, 146 / References, 147.

### 7.\* Intermediate Goods 148

- Problems, 152 / References, 153.

### 8.\* Variable Returns to Scale 154

1. Theoretical Background, 158 / 2. The Stolper-Samuelson Theorem, 161 / 3. The Samuelson-Rybczynski Theorem, 164 / 4. The Relation between Equilibrium Outputs and Commodity Prices, 166 / 5. The Offer Curve, 167 / 6. International Equilibrium, 169 / 7. The Stability of International Equilibrium, 169 / 8. Variable Returns and the Equalization of Relative Factor Rewards, 173 / 9. Other Cases Briefly Considered, 174 / Problems, 178 / References, 179.

### 9. The International Migration of Factors of Production 181

1. Formal Extensions of the Model and Some Preliminary Results, 182 / 2. Market Stability, 192 / 3. Tariff Changes, 196 / 4. Tax Changes, 203 / 5. The Migration of Labor, 206 / 6. Final Remarks 210 / Problems, 211 / References, 212.

Part II

## TRADE AND INVESTMENT IN A CONTEXT OF GROWTH

### 10. International Trade and Economic Growth 215

1. Short-run Equilibrium, 216 / 2. Long-run Equilibrium, 219 / Problems, 236 / References, 236.

## 11. Trade, International Investment and Growth 237

1. The Model, 237 / 2. Existence and Stability of Short-run Equilibrium, 240 / 3. Existence and Stability of Long-run Equilibrium, 243 / 4. Long-run Trade and Investment, 246 / 5. Comparative Dynamics, 248 / 6. Cautionary Remarks, 248 / References, 249.

### Part III

## THE APPRAISAL OF INTERNATIONAL TRADE AND INVESTMENT

## 12. The Gain From Trade and Investment Statically Considered 253

1. Statement and Proof of the Theorem, 254 / 2. Extension of the Proof to Cover Imported Raw Materials, 260 / 3. The Accommodation of Unilateral Transfers, 261 / 4. Welfare and the Terms of Trade, 262 / 5. A Footnote to the Preceding Sections, 265 / 6. Restricted Trade is Superior to No Trade, 267 / 7. Welfare and the Terms of Trade Again, 268 / 8. Increasing Returns to Scale, 270 / 9. Increasing Returns with Distorting Externalities, 273 / 10. The Gains from Trade for Tax-Ridden Economies, 275 / 11. The Gains from Trade for Economies Suffering from other Domestic Distortions, 278 / 12. Welfare and Technical Improvements, 282 / 13. Final Comments, 285 / Problems, 286 / References, 287.

## 13. Optimal Trade and Investment Statically Considered 290

1. World Prices Given, 290 / 2. World Prices Variable, 296 / 3. Sub-Optimal Tariff Policy, 310 / Problems, 313 / References, 315 / Appendices\*, 318.

### Part IV

## THE INTRODUCTION OF MONEY AND OTHER SECURITIES

## 14. The Rate of Exchange, the Terms of Trade, and the Balance of Payments 331

1. The Introduction of Fiat Currencies—Pegged Rate of Exchange, 332 / 2. The Short-run Effects of Devaluation, 335 / 3. The Long-run Effects of Devaluation 339 / 4. Related Comparative Statical Problems, 340 / 5. The Analysis of Floating Exchange Rates, 344 / 6. The Introduction of Bonds and the Rate of Interest, 345 / Problems, 348 / References, 349 / Appendix on Price Elasticities, 352.
