

# PROGRAMMING IN VISUAL BASIC

P K McBride

**BPB PUBLICATIONS**

## Contents

Preface .....	iii
An Introduction to Visual Basic .....	iv
<b>-1- The Windows Environment</b> .....	<b>1</b>
1.1 Windows and DOS .....	2
1.2 Hardware .....	3
1.3 Windows, Icons and Menus .....	4
<b>-2- Visual Basic Concepts</b> .....	<b>7</b>
2.1. Event-Driven Programming .....	8
2.2 Terminology .....	9
2.3 The Working Screen .....	10
2.4 Controls and Events .....	15
2.5 The Menu System .....	16
2.6 The Programming Language .....	19
2.7 Exercises .....	25
<b>-3- Designing and Creating Programs</b> .....	<b>27</b>
3.1 Program Design .....	28
3.2 The Launch Program .....	28
3.3 The Form and the Controls .....	31
3.4 Writing the Code .....	33
3.5 Save Your Work .....	34
3.6 Running and Testing .....	34
3.7 Making an EXE file .....	35
3.8 Printouts .....	36
3.9 Exercises .....	36
<b>-4- Program Flow</b> .....	<b>39</b>
4.1 Logical Testing .....	40
4.2 Branching with If .....	43
4.3 Select Case .....	46
4.4 GoTo .....	47
4.5 For ... Next .....	48
4.6 Do Loops .....	49
4.7 While ... Wend .....	50

	4.8	Exercises .....	
	4.9	Solution to Task 4.1 .....	
-5-		<b>Interacting with the User</b>	
	5.1	MsgBoxes .....	
	5.2	The InputBox Function .....	
	5.3	Scroll Bars .....	
	5.4	Frames .....	
	5.5	Options .....	
	5.6	Check boxes .....	
	5.7	Menus .....	
	5.8	Worked Example .....	
	5.9	Exercises .....	
-6-		<b>Testing and Debugging</b>	7
	6.1	Errors and Error Spotting .....	7
	6.2	Debugging Tools .....	7
	6.3	Breakpoints and Watches .....	7
	6.4	Keeping Watch .....	7
	6.5	Stepping Through .....	7
	6.6	Error-Trapping .....	7
-7-		<b>Graphics (I)</b>	7
	7.1	Objects and Properties for Drawing .....	8
	7.2	The Drawing Methods .....	8
	7.3	The Amateur Painter .....	8
	7.4	Exercises .....	9
-8-		<b>Procedures, Functions and Forms</b>	9
	8.1	Procedures and Functions .....	9
	8.2	Creating a Procedure .....	9
	8.3	Creating a Function .....	9
	8.4	Recursive Functions .....	9
	8.5	Multiple Forms .....	9
	8.6	Startup Forms .....	100
	8.7	Starting from Sub Main .....	100
	8.8	Transferring between Forms .....	102
	8.9	Procedures and Modules .....	102
	8.10	Exercises .....	103

-9-	Arrays	105
	9.1 Dimensions, Elements and Subscripts .....	106
	9.2 Arrays and Loops .....	107
	9.3 Control Arrays .....	110
	9.4 Creating a Control Array .....	112
	9.5 Indexing and Event Handling .....	115
	9.6 Exercises .....	118
-10-	Interacting with the System	119
	10.1 Date and Time .....	120
	10.2 The Timer .....	121
	10.3 Using the Clipboard .....	123
	10.4 Worked Example – Text Editor .....	124
	10.5 File and Directory Controls .....	129
	10.6 Worked Example – File Selector .....	129
	10.7 Using the File Selector .....	132
	10.8 Exercises .....	134
-11-	Sequential Files	135
	11.1 Saving Data to File .....	136
	11.2 Basic Filing .....	137
	11.3 Data Analysis and File .....	139
	11.4 The Extended Text Editor .....	141
	11.5 Exercises .....	143
-12-	Records and Random Access Files	145
	12.1 Record Structures .....	146
	12.2 Random Access Files .....	147
	12.3 The Staff Database .....	148
	12.4 Design and Coding .....	150
	12.5 Exercises .....	158
-13-	Graphics(ii)	159
	13.1 Working with Imported Graphics .....	160
	13.2 Animation .....	161
	13.3 DIY Mines! .....	165
	13.4 Graphics and Control Arrays .....	166
	13.5 1-D and 2-D Arrays .....	167

13.6	Game Design and Coding.....	169
13.7	Exercises .....	173
-14-	MDI Forms .....	175
14.1	MDI – Parent and Child.....	176
14.2	The Gallery .....	176
14.3	Opening Files and Forms.....	179
14.4	Exercises .....	181
	Appendices .....	183
	A: Solutions to Exercises.....	183
	B: Controls Summary .....	193
	Index .....	195
