Working with Tables	106
Chapter 6	
Introducing Cascading Style Sheets	144
Chapter 7	
Web Typography	167
Chapter 8	
Graphics and Color	200
Chapter 9	
Using the Box Properties	241
Chapter 10	
Creating Positioned Layouts	272
Chapter 11	
Creating Framed Layouts	292
Chapter 12	
Working with Forms	316
Chapter 13	
Web Page Design Studio	342
Appendix A	
CSS Reference	377

Content

Preface

Chapter 1 Understanding the Web Design Environment 11

- The Current State of HTML 11
- Moving from HTML to XHTML 15
- Using Good Coding Practices 20
- Browser Compatibility Issues 23
- Considering Connection Speed Differences 24
- Designing for Multiple Screen Resolutions 26
- Operating System Issues 30
- Review Questions 30
- Hands-on Projects 31
- Case Project 32

Chapter 2 Web Site Design Principles 33

- Design for the Computer Medium 33
- Create a Unified Site Design 37
- Design for the User 42
- Design for Location 46
- Design for Accessibility 53
- Design for the Screen 56
- Review Questions 58
- Hands-on Projects 59
- Case Project 59

Chapter 3 Planning the Site 60

- Create a Site Specification 60
- Identify the Content Goal 61
- Analyze your Audience 62
- Build a Web Site Development Team 64
- Create Conventions for Filenames and URLs 65
- Create a Site Storyboard 71
- Publish your Web Site 74
- Test Your Web Site 77
- Refine and Update Your Content 79
- Attract Notice to your Web Site 80
- Review Questions 80
- Hands-on Projects 81
- Case Project 81

Chapter 4 Planning Site Navigation 82

- Creating Usable Navigation 82
- Building Text-based Navigation 85
- Adding Contextual Linking 98
- Text-Based Navigation Summary 99

	Using Graphics for Navigation and Linking	99
	Review Questions	104
	Hands-on Projects	104
	Case Project	105

Chapter 5	Working with Tables	106
	Understanding Table Basics	106
	Using Table Elements	107
	Formatting Tables	114
	Table Pointers for Well-designed Tables	119
	Creating a Page Template	123
	Evaluating Examples of Page Templates	138
	Two-column Template	138
	Review Questions	142
	Hands-on Projects	143
	Case Project	143

Chapter 6	Introducing Cascading Style Sheets	144
	Understanding CSS Style Rules	144
	Building a Basic Style Sheet	147
	Understanding the Cascade	149
	Understanding Inheritance	151
	Understanding Basic Selection Techniques	152
	Understanding Advanced Selection Techniques	157
	Using the <div> and Elements	159
	Using Pseudo-Class and Pseudo-Element Selectors	160
	Review Questions	165
	Case Project	166

Chapter 7	Web Typography	167
	Understanding Type Design Principles	167
	Understanding Css Measurement Units	170
	How to Read the Property Descriptions	173
	Using the Css Font Properties	174
	Creating a Font and Text Properties Style Sheet	188
	Review Questions	198
	Hands-on Projects	198
	Case Project	199

Chapter 8	Graphics and Color	200
	Understanding Graphics File Formats	200
	Choosing a Graphics Tool	205
	Using the Element	206
	Controlling Image Properties with CSS	211
	Understanding Computer Color Basics	215
	Controlling Color Properties with Css	219
	Working with Images and Color	223
	Controlling Background Images With CSS	227
	Applying the Background Properties	236
	Review Questions	239
	Hands-on Projects	239
	Case Project	239

6 Contents

Chapter 9	Using the Box Properties 241
	The CSS Visual Formatting Model 241
	Using the CSS Box Model 243
	Using the Margin Properties 245
	Using the Padding Properties 249
	Using the Border Properties 251
	Using the Special Box Properties 256
	Applying the Box Properties 261
Chapter 10	Customizing Lists 264
	Review Questions 271
	Hands-on Projects 271
	Case Project 271
	Creating Positioned Layouts 272
Chapter 11	Positioning Elements 272
	Building a Page Layout with Positioned Elements 282
	Review Questions 291
	Hands-on Projects 291
	Case Project 291
Chapter 12	Creating Framed Layouts 292
	Understanding Frames 292
	Customizing Frame Characteristics 299
	Designing Effective Frames 308
	Working With Framesets 311
	Review Questions 315
	Hands-on Projects 315
Case Project 315	
Chapter 13	Working with Forms 316
	Understanding How Forms Work 316
	Understanding Form Syntax 317
	Creating Input Objects 318
	Building Forms within Tables 329
	Building and Testing a Sample Form 331
	Review Questions 339
	Hands-on Projects 339
Case Project 341	
Appendix A	Web Page Design Studio 342
	The Initial Design Process 342
	Creating the Mock-up Web Page 345
	Review Questions 375
	Hands-on Projects 375
Appendix A	Case Project 376
	CSS Reference 377
	CSS Notation Reference 377
	Alphabetical CSS Property Reference 377
Appendix A	CSS Properties by Category 382
	CSS Measurement Units 386
