

Dr. A. Ahmad

# World Geography

# Contents

---

---

## *Preface*

1. **Nature in a Shape** 1  
The Backdrop • Natural Amendments • Advancement of Information • Fresh Proposals • Significant Study
  
2. **Resources of Geography** 17  
Grouping of Energy • Traditional Yield of Energy • Means of Energy • Distribution and Sources • The Classification • By-products of Coal • Means of Coal • Reserves of Coal • Nations Producing Coal • Global Bazaar • Importance of Petroleum • By-products of Petroleum • Birth of Petroleum • Finding of Oil • World Demand for Petrol • Natural Gas Areas • Energy from Water • Important Reasons • Global Demand • Means of Energy • Yield of Nuclear Power • Yield of Energy • Methods of Solar Energy • Resultant Growth • Yield of Power • Conversion Method
  
3. **Resources of Earth** 77  
Production of Coal • Petroleum Industry • Characteristics of Nature • Yield of Natural Gas • Yield of Hydroelectricity • Power-generation through Water • Use of Thorium
  
4. **Ecological System** 133  
Climate and History • Regional Division • Different Methods • Division of Energy • Stratification of Moisture • Various Climates • Different Climates

<b>5. The Climate</b>	<b>169</b>
<ul style="list-style-type: none"> <li>The Formation • The Framework • Harm to Ozone</li> <li>• Global Worry • Role of Humidity • Formation of Clouds • Various Clouds • Benefits of Rain</li> <li>• Different Rains • Yearly Effects • Role of Fog</li> </ul>	
<b>6. Climate Change</b>	<b>199</b>
<ul style="list-style-type: none"> <li>Process of Regular Change • Alteration and Atmosphere • Affecting Ozone Layer • The Basics</li> <li>• Challenge for All • The Impacts • Erosion of Soil</li> <li>• Increasing Deserts • Waste Recycled • Lack of Water • Fall in Ecosystem • Progress and Uses</li> <li>• Outline of Climate Change • Protection of Forests</li> <li>• Future of Forests</li> </ul>	
<b>7. Seasons and Weathers</b>	<b>237</b>
<ul style="list-style-type: none"> <li>Theory and Nature • Elements of Control</li> <li>• Weathering Methods • Importance of Changes</li> <li>• Importance of Topography</li> </ul>	
<b>8. The Ecosystem</b>	<b>273</b>
<ul style="list-style-type: none"> <li>The Elements • Society and Sub-partition</li> <li>• Importance of Energy • The Manufacturers</li> <li>• End Users • Non-biotic Elements • Importance of Ecosystem • Order of Ecology • Earth and Ecology • Issue of Deforestation • Better Forests</li> <li>• Different Results • Partition of Jungles</li> </ul>	
<i>Bibliography</i>	<b>301</b>
<i>Index</i>	<b>305</b>
