Contents

PART-A

Frequency Distribution

(i)-(viii)

1. Measures of Central Tendency *unit-I* } 1

2. Measures of Dispersion *unit I* } 126

3. Measures of Skewness 196

4. Moments and Measures of Kurtosis 221

5. Probability *unit-II* *concept, Approach,* *conditional* 249

6. Probability Distributions — Binomial and Poisson *additive an* 337

7. Probability Distribution — Normal 384

PART-B

1. Partial and Multiple Correlation and Regression *unit-I* (3)

2. Sampling and Sampling Distribution *unit-II* 37

3. Tests of Hypothesis — Large Sample Tests *Z* *unit-III* 55

4. Tests of Hypothesis — Small Sample Tests *T* *III* 86

5. Chi-Square Test	III	129
6. F-Test and Analysis of Variance	III	168
7. Statistical Estimation Theory	IV	199
8. Non-Parametric Tests	III	227
9. Statistical Decision Theory	IV	252
10. Statistical Quality Control	IV	276

PART-C

Coherence, Reliability of estimate

1. Simple Correlation Analysis	Unit I	1
2. Simple Regression Analysis	Unit I	73
3. Index Numbers-I	IV method	171
4. Index Numbers-II	IV Application	232
5. Time Series Analysis-I	IV	275
6. Time Series Analysis-II	IV	343
7. Association of Attributes		369
