

M.L. JHINGAN • J.K. STEPHEN

# Managerial Economics

# CONTENTS

<b>Chapter 1</b>	<b>1-24</b>
<b>Nature, Scope and Methods of Managerial Economics</b>	
✓ Meaning and Definition	
✓ Economic Theory and Managerial Theory	
✓ Nature of Managerial Economics	
✓ Scope of Managerial Economics	
Subject-matter of Managerial Economics	
Relation to Other Branches of Knowledge	
Techniques or Methods of Managerial Economics	
✓ Role of A Managerial Economist in Business Decision Making	
✓ Role and Responsibilities of A Managerial Economist	
✓ Responsibilities of Managerial Economist	
Questions	
Exercises	
<b>Chapter 2</b>	<b>25-31</b>
<b>Fundamental Economic Concepts</b>	
Introduction	
The Incremental Concept	
The Concept of Time Perspective	
The Opportunity Cost Concept	
Equi-Marginal Concept	
Discounting Concept	
Risk And Uncertainty	
Exercises	
<b>Chapter 3</b>	<b>32-40</b>
<b>Risk, Uncertainty and Probability Analysis</b>	
Uncertainty	
Risk	
Non-Insurable Risk	

Probability Analysis  
Basic Concepts  
Exercises

#### Chapter 4 Demand Analysis

Meaning of Demand  
Types of Demand  
An Individual's Demand Schedule and Curve  
The Market Demand Schedule and Curve  
Changes In Demand  
The Law of Demand  
Income Demand  
Cross Demand  
Demand Determinants  
Exercises

#### Chapter 5 The Elasticity of Demand

Introduction  
Price Elasticity of Demand  
Cross Elasticity of Demand  
Income Elasticity of Demand  
Advertising or Promotional Elasticity of Demand  
Importance of Elasticity of Demand in Management  
Exercises

#### Chapter 6 The Cardinal Utility Approach

Introduction  
The Law of Diminishing Marginal Utility  
The Proportionality Rule or Consumer's Equilibrium under  
Utility Analysis  
Defects of Utility Analysis  
Exercises

#### Chapter 7 The Indifference Curve Approach

Introduction  
Meaning of Indifference Curve

Law of Diminishing Marginal Rate of Substitution (DMRS)  
 Properties of Indifference Curves  
 Price-Income Line or Budget Line  
 Consumer's Equilibrium  
 Income Effect  
 The Substitution Effect  
 The Price Effect  
 Separation of Substitution and Income Effects from  
 the Price Effect  
 To Derive Demand Curve from Price- Consumption Curve  
 Application of Indifference Curve Analysis  
 Superiority of Indifference Curve Technique over Utility Analysis  
 Criticisms of Indifference Curve Analysis  
 Exercises

**Chapter 8**

**134-145**

**The Concept of Consumer's Surplus**

Statement of The Concept  
 Consumer's Surplus in terms of Indifference Curve Analysis :  
 Hicks' Formulation  
 Criticisms of Consumer's Surplus  
 Practical Usefulness of the Concept  
 Exercises

**Chapter 9**

**146-158**

**The Revealed Preference Theory of Demand**

Introduction  
 Choice Reveals Preference  
 The Law of Demand  
 Derivation of The Demand Curve from Revealed Preference  
 Derivation of Indifference Curve from Revealed Preference  
 Superiority of Revealed Preference Theory  
 Defects of The Revealed Preference Theory

**Chapter 10**

**159-168**

**Theory Of Consumer Choice Under Risk**

The Problem  
 The Bernoulli Hypothesis  
 The Neumann-Morgenstern Method of Measuring Utility  
 The Friedman-Savage Hypothesis

The Markowitz Hypothesis  
 Critical Appraisal of Modern Utility Analysis  
 Exercises

**Chapter 11**  
**Demand Forecasting**

Meaning  
 Types  
 Forecasting Techniques or Methods ✓  
 Case Study  
 Questions  
 Exercises

169-184

**Chapter 12**  
**Production Function : Laws of Variable Proportions and Returns to Scale**

Introduction  
 The Production Function  
 The Law of Variable Proportions ✓  
 The Law of Returns to Scale ✓  
 Economies of Scale : Internal and External Economies ✓  
 Diseconomies of Scale ✓  
 Exercises

185-206

**Chapter 13**  
**Production Function: The Isoquant Analysis**

207-235

Isoquants  
 Isoquants Vs. Indifference Curves  
 The Principle of Marginal Rate of Technical Substitution  
 The Ridge Lines  
 Isocost Curves and Expansion Path  
 The Law of Variable Proportions: Production Function with  
 one Variable Input ✓  
 The Laws of Returns to Scale: Production Function with  
 two Variable Inputs ✓  
 Relation Between Returns to Scale and Returns to a Factor  
 Producer's Equilibrium or Choice of Optimal Factor  
 Combination or Least Cost Combination of Factors  
 Choice of Optimal Expansion Path  
 Elasticity of Output

Estimation of Production Function  
 Managerial uses of Production Function  
 Exercises

**Chapter 14**  
**Cost Theory**

236-262

Introduction  
 Cost Concepts  
 The Cost Function  
 Cost-Output Relation  
 The Modern Theory of Costs  
 Economies of Scale and the LAC Curve  
 Elasticity of Cost  
 Elasticity of Productivity  
 Exercises

**Chapter 15**  
**Cost Control, Reduction and Estimation**

267-293

Introduction  
 Cost Control  
 Main Areas of Cost Control  
 Tools of Cost Control  
 Variance Analysis  
 Ratio Analysis  
 Factors Hampering Cost Control in India  
 Cost Reduction  
 Economic Value Analysis  
 Cost Estimation  
 Case Study  
 Exercises

**Chapter 16**  
**Market Structures**

294-306

Introduction  
 Meaning of Market  
 Characteristics of Market  
 Market Structure  
 Forms of Market Structure  
 Exercises

## Chapter 17

### The Concept of Revenue

307-311

Total, Average and Marginal Revenue  
 Relation between AR and MR Curves under Different  
 Market Conditions  
 Importance of Revenue Curves  
 Exercises

## Chapter 18

### Supply—Its Law, Elasticity and Curves

316-327

Introduction  
 Supply  
 The Law of Supply  
 The Elasticity of Supply  
 The Short-run Supply Curve of The Firm and Industry  
 The Long-run Supply Curve of The Firm and Industry  
 Supply Curve under Monopoly  
 Exercises

## Chapter 19

### Equilibrium of the Firm and Industry under Perfect Competition

328-335

Meaning of Firm and Industry  
 Equilibrium of the Firm  
 Equilibrium of the Industry under Perfect Competition  
 Exercises

## Chapter 20

### Pricing Under Perfect Competition

336-345

Price Determination in Perfectly Competitive Market  
 Importance of Time Element in Price Theory  
 Comparison between Market Price And Normal Price  
 Exercises

## Chapter 21

### Monopoly Pricing

346-367

Meaning  
 Sources and Types Of Monopoly  
 Pure Monopoly  
 Monopoly Price Determination

Degree of Monopoly Power—Its Measure	
Control and Regulation of Monopoly	
Comparison between Monopoly and Perfect Competition	
Exercises	
<b>Chapter 22</b>	<b>368-383</b>
<b>Price Discrimination</b>	
Meaning	
Types of Price Discrimination	
Conditions for Price Discrimination	
Price Discrimination : The General Case	
Degrees of Price Discrimination	
Price Discrimination—Harmful or Beneficial to Society	
International Price Discrimination : Dumping	
Types of Dumping	
Objectives of Dumping	
Price Determination under Dumping	
Effects of Dumping	
Anti-Dumping Measures	
Exercises	
<b>Chapter 23</b>	<b>384-407</b>
<b>Pricing under Monopolistic Competition</b>	
Introduction	
Meaning	
Price Determination of a firm under Monopolistic competition	
Chamberlin's Group Equilibrium	
Theory of Excess Capacity	
Selling Costs	
Non-Price Competition under Monopolistic Competition	
Differences between Perfect Competition and Monopolistic Competition	
Difference between Monopoly and Monopolistic Competition	
Exercises	
<b>Chapter 24</b>	<b>408-428</b>
<b>Pricing under Oligopoly</b>	
Meaning	
Price Determination under Oligopoly	
Non-Price Competition in Oligopoly	
Exercises	

## **Chapter 25**

### **Concepts in Resource Allocation**

Meaning

Empirical Techniques of Resource Allocation to be Used by a Firm

Perfect Competition and Resource Allocation

Monopoly and Resource Allocation

Monopolistic Competition and Resource Allocation

Oligopoly and Resource Allocation

Exercises

## **Chapter 26**

### **Game Theory**

Introduction

Two-Person Constant-Sum or Zero-Sum Game

Non-Constant-Sum Games

Non-Cooperative Non-Constant Sum Games

Limitations of Game Theory

Importance of Game Theory

Exercises

## **Chapter 27**

### **General Equilibrium**

Introduction

Meaning

Working of the General Equilibrium System

Uses of General Equilibrium Analysis

Exercises

## **Chapter 28**

### **Linear Programming**

Meaning

Conditions and Generalizations

Application to The Firm

Limitations of Linear Programming

Application of Linear Programming

Application in India

Graphic Solutions

Marginalism and LP as Techniques of Optimisation

Marginalism and LP

Exercises

**Chapter 29** **482-491**  
**Input-Output Analysis**

- Introduction
- Main Features
- The Static Input-Output Model
- The Dynamic Input-Output Model
- Limitation of Input-Output Analysis
- Importance
- Exercises

**Chapter 30** **492-496**  
**Statistical Decision Theory**

- Introduction
- Decision Types
- Logical Decision Framework
- Choice of a Decision Criteria
- Exercises

**Chapter 31** **497-530**  
**Objectives of Business Firm** *Photo*

- Introduction
- Profit Maximisation Theory
- The Marginalist Controversy
- Managerial Theories
- Williamson's Utility Maximisation Theory
- Growth Maximisation Theory of Marris
- Baumol's Sales or Revenue Maximisation Theory
- Behavioural Theories
- Exercises

**Chapter 32** **531-567**  
**Pricing Policies And Strategies**

- Introduction
- Pricing Policy
- Pricing Strategies
- Case Study
- Exercises

**Chapter 33**  
**Pricing of Public Undertakings**

- Introduction
- Pricing of Public Utility Services
- Marginal Cost Pricing Rule
- No-Profit No-Loss Policy
- Profit-Price Policy
- Exercises

**Chapter 34**  
**Product Policy**

- Introduction
- Product Planning and Development
- Product Line
- Product Mix
- Product Branding
- Product Positioning
- Product Packaging
- Exercises

**Chapter 35**  
**Marketing Strategy**

- Strategy
- Types of Marketing Strategies
- Exercises

**Chapter 36**  
**Advertising**

- Introduction
- Advertising Cost
- Determining Advertisement Budget
- Advertisement Effectiveness
- Study
- Exercises

**Chapter 37**  
**Profit and Profit Management**

- The Concept of Profit
- Profit Policies

The Measurement of Profit  
Profit Planning and Control  
Exercises

**Chapter 38** **652-666**  
**Break-Even Analysis**

Break-Even Point  
Determination of Break-even Point  
Managerial Uses of Break-Even Analysis  
Case Study  
Exercises

**Chapter 39** **667-713**  
**Capital Budgeting**

Benefit-Cost Ratio Method  
Investment Decision Under Risk  
Managerial Techniques for Investment Decision-making  
Decision Theory  
Case Studies  
Exercises  
Appendix - 1 : Cost-Benefit Analysis

**Chapter 40** **714-732**  
**Inventory Control Management**

Nature of Inventories  
Market Structure and Inventories  
Methods of Evaluating Inventories  
Objectives of Inventory Management  
Cases Study  
Exercises

**Chapter 41** **733-742**  
**Macroeconomic : Aggregates and Concepts**

Introduction  
Macroeconomics  
Price Indices : WPI and CPI  
Exercises

**Chapter 42****National Income : Meaning and Measurement**

Introduction  
 Definitions of National Income  
 Concepts of National Income  
 Methods of Measuring National income  
 Difficulties or Limitations in Measuring National Income  
 Importance of National Income Analysis  
 Inter-relationships among Different Concepts of NI  
 Some Solved Problems  
 Exercises

**Chapter 43****The Saving Function**

Meaning of Saving Function  
 Determinants of Savings  
 The Paradox of Thrift  
 Exercises

**Chapter 44****The Consumption Function**

Introduction  
 Meaning of Consumption Function  
 Properties or Technical Attributes of the Consumption Function  
 Keynes's Psychological Law of Consumption  
 Implications of Keynes's Law (or Importance of the  
 Consumption Function)  
 Determinants of the Consumption Function  
 Measures to Raise the Propensity to Consume  
 Exercises

**Chapter 45****The Investment Function**

Meaning Of Capital and Investment  
 Types of Investment  
 Determinants of The Level of Investment  
 The Marginal Efficiency of Investment (MEI)  
 Distinction between MEC and MEI  
 Factors other than The Interest Rate affecting Inducement  
 to Invest  
 Exercises

**Chapter 46** **808-818**  
**The Theory of National Income Determination**

- Introduction
- Two-Sector Model
- Four Sector Model : Income Determination in an Open Economy
- Exercises

**Chapter 47** **819-835**  
**The Supply of Money**

- Definition of Money Supply
- Determinants of Money Supply
- High-Powered Money and the Money Multiplier
- Measures of Money Supply in India
- Money Supply and Liquidity
- Derivation of Money Multipliers
- Exercises

**Chapter 48** **836-866**  
**Inflation**

- Introduction
- Meaning of Inflation
- Demand-pull Inflation
- Cost-push Inflation
- The Inflationary Gap
- The Phillips Curve : The Relation between Unemployment and Inflation
- Causes of Inflation
- Measures to Control Inflation
- Effects of Inflation
- Exercises

**Chapter 49** **867-874**  
**Monetary Policy**

- Meaning of Monetary Policy
- Objectives or Goals of Monetary Policy
- Instruments of Monetary Policy
- Expansionary Monetary Policy
- Restrictive Monetary Policy
- Exercises

## Chapter 50 Fiscal Policy

Meaning  
Objectives of Fiscal Policy  
Fiscal Policy for Economic Growth  
Budgetary Policy—Contracyclical Fiscal Policy  
Exercises

## Chapter 51 Effectiveness of Monetary and Fiscal Policy

Introduction  
Monetary Policy  
Fiscal Policy  
The Synthesist View : Three Range Analysis  
Monetary Policy  
Fiscal Policy  
Monetary-Fiscal Mix  
Exercises

## Chapter 52 Business Cycles

Meaning  
Characteristics of Business Cycles  
Phases of a Business Cycle  
Effects of Business Cycles  
Theories of Business Cycles  
Measures to Control Business Cycles or Stabilisation Policies  
Exercises

## Chapter 53 Balance of Payments : Meaning and Components

Meaning  
Structure of Balance of Payments Accounts  
Is Balance of Payments always in Equilibrium ?  
Measuring Deficit or Surplus in Balance of Payments  
Balance of Trade and Balance of Payments  
Disequilibrium in Balance of Payments  
Measures to correct Deficit in Balance of Payments  
Exercises
